Public Health Nutrition

Volume 15, 2012 ISSN: 1368-9800

Twelve issues per year

Aims and Scope

Public Health Nutrition provides an international forum for the publication and dissemination of research and scholarship in the form of peer-reviewed original papers and reviews, and for discussion in the form of editorials, commentaries, and correspondence, with a specific focus on nutrition-related public health.

The scope of *Public Health Nutrition* includes food systems and supplies, patterns of diet, foods and drinks, nutrients, body composition, physical activity, and associated factors, and their effects on disease, health and well-being, and the whole living and physical world. We welcome papers that:

- Address nutritional status **assessment, monitoring, and surveillance**
- Identify and analyse social, cultural, biological, environmental, economic and political **determinants of nutrition-related public health**
- Build intelligence about the development and evaluation of environmental and settings-based **interventions** focused on the availability of foods including interventions in the out of home eating environment.

- Describe, discuss, debate and influence **food and nutrition policy**
- Focus on improving food and nutrition-related public health, particularly in **populations that are most vulnerable and at risk**.
- Discuss and **build capacity** for effective public health nutrition action, including workforce development and educational issues
- Develop and test **innovative and emerging models, methods and approaches** to public health nutrition practice and research.

We prefer papers that are innovative and contribute new knowledge to the literature. Papers should be succinct (ie, usually well under 5,000 words including references). Short communications are welcome. We publish research, scholarship, and discussions that take a population and preventive approach. In addition to original contributions, ideas and suggestions for topics for debate are also welcome. We publish special issues.

Public Health Nutrition is available on the Internet at: journals.cambridge.org/phn

International Editorial Board

Editor-in-Chief

Professor Agneta Yngve

Department of Health, Nutrition and Management, Faculty of Health Sciences, Oslo and Akershus University College of Applied Sciences, Postbox 4, St. Olavsplass, NO 0130 Oslo, Norway
Email: phn@nutsoec.org.uk

Deputy Editors

Research Professor Marilyn Tseng

California Polytechnic State University
San Luis Obispo, USA

Dr Irja Haapala

University of Eastern Finland, Finland

Dr Allison Hodge

University of Melbourne, Australia

Advisory Board

Professor Barbara Ainsworth, Arizona State University, USA

Professor Janet Cade, University of Leeds, UK

Professor Emeritus Leif Hambræus, Karolinska Institutet, Sweden

Professor Carlos A Monteiro, University of São Paulo, Brazil

Professor Kerin O'Dea, University of South Australia, Australia

Professor Heizo Tanaka, Kanagawa Institute of Technology, Japan

Professor Hester Vorster, North-West University, South Africa

First Editors

Dr Faruk Ahmed, Kuwait University, Kuwait

Professor Kylie Ball

Deakin University, Australia

Professor Thomas Baranowski,

Baylor College of Medicine, USA

Dr Mary Barker,

University of Southampton, UK

Dr Maree Brinkman, University of Melbourne, Australia

Dr Victoria Burley, University of Leeds, UK
