

CONTENTS

Breeding and genetics

- Sanchez, M. P., Iannuccelli, N., Basso, B., Foury, A., Billon, Y., Gandemer, G., Gilbert, H., Mormède, P., Bidanel, J. P., Larzul, C., Riquet, J., Milan, D. and Le Roy, P.*
 Microsatellite mapping of quantitative trait loci affecting meat quality, stress hormones and production traits in Duroc × Large White F2 pigs 167

- Detilleux, J. C.*
 A hidden Markov model to predict early mastitis from test-day somatic cell scores 175

- Keane, M. G., Dunne, P. G., Kenny, D. A. and Berry, D. P.*
 Effects of genetic merit for carcass weight, breed type and slaughter weight on performance and carcass traits of beef × dairy steers 182

- Glenske, K., Prinzenberg, E.-M., Brandt, H., Gauly, M. and Erhardt, G.*
 A chromosome-wide QTL study on BTA29 affecting temperament traits in German Angus beef cattle and mapping of *DRD4* 195

- Morris, C. A., Amyes, N. C. and Hickey, S. M.*
 Responses of prolactin and hair growth to selection for age at puberty in Angus cattle 198

Nutrition

- Rivera-Torres, V., Noblet, J., Dubois, S. and van Milgen, J.*
 Dynamics of energy utilization in male and female turkeys during growth 202

- Kosiorowska, A., Puggaard, L., Hedemann, M. S., Sehested, J., Jensen, S. K., Kristensen, N. B., Kuroпка, P., Marycz, K. and Vestergaard, M.*
 Gastrointestinal development of dairy calves fed low- or high-starch concentrate at two milk allowances 211

- Rowson, A. D., Wang, Y.-Q., Aalseth, E., Forsberg, N. E. and Puntenney, S. B.*
 Effects of an immunomodulatory feed additive on the development of mastitis in a mouse infection model using four bovine-origin isolates 220

- Umar Faruk, M., Bouvarel, I., Mallet, S., Ali, M. N., Tukur, H. M., Nys, Y. and Lescoat, P.*
 Is sequential feeding of whole wheat more efficient than ground wheat in laying hens? 230

- Ferreira, L. S. and Bittar, C. M. M.*
 Performance and plasma metabolites of dairy calves fed starter containing sodium butyrate, calcium propionate or sodium monensin 239

Physiology and functional biology of systems

- Wylie, A. R. G.*
 Leptin in farm animals: where are we and where can we go? (review) 246

- Kucia, M., Langhammer, M., Görs, S., Albrecht, E., Hammon, H. M., Nürnberg, G. and Metges, C. C.*
 High-protein diet during gestation and lactation affects mammary gland mRNA abundance, milk composition and pre-weaning litter growth in mice 268

- Chelh, I., Picard, B., Hocquette, J.-F. and Cassar-Malek, I.*
 Myostatin inactivation induces a similar muscle molecular signature in double-muscled cattle as in mice 278

Behaviour, welfare and health

- Chauvin, C., Hillion, S., Balaine, L., Michel, V., Peraste, J., Petetin, I., Lupo, C. and Le Bouquin, S.*
 Factors associated with mortality of broilers during transport to slaughterhouse 287

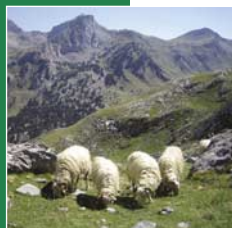

- Faleiro, A. G., González, L. A., Blanch, M., Cavini, S., Castells, L., Ruíz de la Torre, J. L., Manteca, X., Calsamiglia, S. and Ferret, A.*
 Performance, ruminal changes, behaviour and welfare of growing heifers fed a concentrate diet with or without barley straw 294

- Huang, R. H., Qiu, X. S., Shi, F. X., Hughes, C. L., Lu, Z. F. and Zhu, W. Y.*
 Effects of dietary allicin on health and growth performance of weanling piglets and reduction in attractiveness of faeces to flies 304

Product quality, human health and well-being

- Sirri, F., Castellini, C., Bianchi, M., Petracchi, M., Meluzzi, A. and Franchini, A.*
 Effect of fast-, medium- and slow-growing strains on meat quality of chickens reared under the organic farming method 312

- Wei, X. J., Ni, Y. D., Lu, L. Z., Grossmann, R. and Zhao, R. Q.*
 The effect of equol injection *in ovo* on posthatch growth, meat quality and antioxidation in broilers 320

CAMBRIDGE

JOURNALS

World's Poultry Science Journal

Published on behalf of
The World's Poultry Science Association

Editor

Lucy Tucker, *Waiti Hill Ltd, New Zealand*

World's Poultry Science Journal provides authoritative reviews in poultry science and an international forum for the exchange and dissemination of information including research, education and industry organisation. Each issue includes poultry industry-related news, regional reports on global developments in poultry, reports from specialist scientific working groups, book reviews, association news and a calendar of forthcoming events.

Coverage includes breeding, nutrition, welfare, husbandry, production systems, processing, product development, physiology, egg and meat quality, industry structure, economics and education.

The journal is of interest to academics, researchers, students, extension workers and commercial poultry producers.
