## Editors

Adam Oliver, *London School of Economics and Political Science, UK*

Elias Mossialos, *London School of Economics and Political Science, UK*

International trends highlight the confluence of economics, politics and legal considerations in the health policy process. *Health Economics, Policy and Law (HEPL)* provides a forum for inter-disciplinary health policy studies, and will be of use to academics, policy makers, health care managers and professionals. *HEPL* is international in scope, publishing both theoretical and applied work, with articles on all aspects of health policy. *HEPL* is particularly interested in publishing innovative ideas that promise to contribute to improving health and healthcare policy. Considerable emphasis is placed on rigorous conceptual development and analysis, and on the presentation of empirical evidence that is relevant to the policy process. Review articles and debate sections bring readers in touch with current research developments and issues.
