

# ANNUAL SERIES

Review of Volume 1 . . . "This new series, devoted to 'the publication of research papers that are longer than a conventional, journal-length article yet shorter than a monograph,' is a most welcome addition to the publishing outlets available to economic historians. The nine substantial papers included in the first volume augur well for the success of the venture . . . One of the most remarkable features of this volume — and propitious for the future of the series — is that although some of the contributions fall short of the quality one expects in a major scholarly journal, so many meet or exceed it."

## **BUDGETS AND BUREAUCRATS**

### **THE SOURCES OF GOVERNMENT GROWTH**

Thomas E. Borcherding, *editor*

Why have governments expanded their budgets more quickly than their incomes have risen? These studies are among the first to explore quantitatively, using the theory of public choice, the factors that influence government spending. Essays by Gordon Tullock, James M. Buchanan, Robert M. Spann, Winston C. Bush, Arthur T. Denzau, Robert J. Staaf, Dennis J. Jacobs, Charles J. Goetz, Robert J. Mackay, William Orzechowski, Cotton M. Lindsay, Don Norman, and Thomas E. Borcherding.

## **THE SOCIALIST PRICE MECHANISM**

Alan Abouchar, *editor*

The first truly comprehensive sourcebook on Socialist pricing policies since 1960. Francis Seton, Jean-Michel Collette, Edward A. Hewett, Gregory Grossman, Aaron Katsenelinboigen, Alan A. Brown, Joseph A. Licari, Morris Bornstein, Janet G. Chapman, Janusz G. Zielinski, and Alan Abouchar analyze Soviet and non-Soviet economies in Eastern Europe.

Spring 1977, \$14.75

## **KEYNES' MONETARY THOUGHT**

### **A STUDY OF ITS DEVELOPMENT**

Don Patinkin

"Professor Patinkin, himself a distinguished macro-economist, has long been concerned with the analysis of the Keynesian contribution. The present monograph offers a lucid account of the key ideas in Keynes' three important works. . . . It is a fascinating piece of scholarship and is required reading for anybody who wishes seriously to comprehend the history of economics in the twentieth century." *The Economist*

\$9.75

## **THE GROWTH OF ECONOMIC THOUGHT**

Henry William Spiegel

"A veritable panorama of both intellectual breadth and interpretive depth and perceptivity—and superbly written to boot . . . Spiegel's book will become and remain a leading text in the field." Warren J. Samuels, *Social Science*

\$16.75

## **THEORY OF SPATIAL PRICING AND MARKET AREAS**

M. L. Greenhut and H. Ohta

"Professor Greenhut overwhelmingly dominates this field . . . the book offers a guided tour to landmarks in spatial price analysis." *Journal of Economic Literature*

# Now Available:

**Adam Smith:  
The Man and His Works**  
By E. G. West

1776 was a year of momentous events, including publication of *The Wealth of Nations*—the book that launched the movement for economic liberty. Here is a brisk look at the author of that epic, written for the layman and student. Hardcover \$6.95, Paperback \$1.45.

## **The Wisdom of Adam Smith**

Adam Smith may have been the first great economist, but he was no dismal scientist. He was instead a man of great philosophical and historical learning, and his literary style was widely admired. *The Wisdom of Adam Smith* brings together his most incisive and eloquent observations on subjects ranging from political and economic history to morals, philosophy, art, education, war and the American colonies. Compiled by British scriptwriter and playwright John Haggarty, edited and with an introduction by Benjamin A. Rogge. Hardcover \$7.95, Paperback \$1.05.

**The Theory of Moral Sentiments**  
By Adam Smith

Adam Smith's first book will startle those who think capitalists are purely selfish, for Smith fully understood that liberty must be based in a moral order. Dr. E. G. West, who writes the introduction, asserts that "if *The Wealth of Nations* had never been written, this previous work would have earned for him a prominent place in intellectual history." *The Theory of Moral Sentiments* was greeted with rapturous praise in its own day. Smith's friend David Hume wrote to him from London soon after the publication, telling him that "the public seem disposed to applaud it extremely." The "mob of literati," Hume added, "are beginning to be very loud in its praise." Hardcover \$9.95, Softcover \$2.95.
