

**IMPERIAL COLLEGE OF SCIENCE TECHNOLOGY & MEDICINE**

*University of London*

*Department of Biology*

## **Modern Approaches to the EPIDEMIOLOGY AND CONTROL OF INFECTIOUS DISEASES**

**An Intensive Short Course**

**3 - 21 September 1990**

Designed by a leading research team to provide scientific, medical and veterinary staff from university research groups, research institutes, industrial firms and public health organisations with a working knowledge of the latest developments in the theoretical and practical application of quantitative methods to the epidemiology and control of infectious diseases in man and animals.

For further details contact:

Peter Combey, Director of Continuing Education,  
321 Sherfield, Imperial College, London, UK, SW7 2AZ

<b>Notes for Contributors</b>	

# Epidemiology and Infection

Original reports and reviews on all aspects of  
infection of man and animals

## CONTENTS

<b>Special Article. Epidemiological aspects of human cryptosporidiosis</b> Casemore, D. P.	1
<b>Maintenance of cooling towers following two outbreaks of Legionnaires' disease in a city</b> Bhopal, R. S. and Barr, G.	29
<b>Prevalence of antibodies to 15 antigens of Legionellaceae in patients with community-acquired pneumonia</b> McIntyre, M., Kurtz, J. B. and Selkon, J. B.	39
<b>A prospective study of genital infections in a family-planning clinic. 1. Microbiological findings and their association with vaginal symptoms</b> Riordan, T., Macaulay, M. E., James, J. M., Leventhall, P. A., Morris, E. M., Neal, B. R., Rowland, J. and Evans, B. M.	47
<b>A prospective study of genital infections in a family-planning clinic. 2. Chlamydia infection - the identification of a high-risk group</b> Macaulay, M. E., Riordan, T., James, J. M., Leventhall, P. A., Morris, E. M., Neal, B. R. and Ellis, D. A.	55
<b>Serological response of chickens to <i>Salmonella enteritidis</i> infection</b> Chart, H., Rowe, B., Baskerville, A. and Humphrey, T. J.	63
<b>Experimental observations on the pathogenesis of necrobacillosis</b> Smith, G. R., Wallace, L. M. and Noakes, D. E.	73
<b>Bacterial contamination of weaning foods and drinking water in rural Bangladesh</b> Henry, F. J., Patwary, Y., Huttly, S. R. A. and Aziz, K. M. A.	79
<b>Bacteriological quality of on-farm manufactured goat cheese</b> Tham, W. A., Hajdu, L. J. and Danielsson-Tham, M.-L. V.	87
<b>Horizontal transmission of <i>Campylobacter jejuni</i> amongst broiler chicks: experimental studies</b> Shanker, S., Lee, A. and Sorrell, T. C.	101
<b>Development of a new set of phages as an epidemiological marker in <i>Staphylococcus epidermidis</i> causing nosocomial infections</b> Martín-de-Nicolás, M. M., Vindel, A. and Sáez-Nieto, J. A.	111
<b>The epidemiology of beta-haemolytic non-Group A streptococci isolated from the throats of children over a one-year period</b> Cimolai, N., MacCulloch, L. and Damm, S.	119
<b>Lack of association of <i>Escherichia coli</i> exhibiting both mannose-resistant haemagglutination and diffuse adherence to HEp-2 cells with acute diarrhoea in children</b> Cobeljic, M., Stojiljkovic, I., Budisin, A., Lepsanovic, Z. and Lers, N.	127
