

ANIMAL PRODUCTION

JOURNAL OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

APRIL 1978

VOL. 26 PART 2

LONGMAN

INFORMATION FOR CONTRIBUTORS TO
ANIMAL PRODUCTION

Detailed notes for guidance in the preparation of manuscripts are printed in Volume 25: ix-xxii. A few general points are given below:

Animal Production publishes reports in English of *original* work in the field of animal production, or in any related scientific field. The Editors will consider articles on any aspect of research or development, providing the work described has been carried out in a systematic way, and articles critically re-examining published information. Reviews of the literature are not accepted. Reports on techniques will be published only as appendices to scientific papers. Contributions should be concise. Results of research which do not warrant a comprehensive presentation may be submitted for consideration as *Notes*. Notes are not intended for the publication of interim results. They should not exceed 2000 words or the equivalent inclusive of tables and illustrations.

Papers are published on the understanding that they have not been and, with the exception of authors' abstracts, will not be published elsewhere without the Editor's written permission. Authors' abstracts can be reproduced if full acknowledgement of the source is made.

Manuscripts should be typewritten on one side of the paper in double-line spacing with wide margins. Each page and the lines on each page should be numbered. Three, or exceptionally two, copies, one of which must be the original, of the typescript and illustrations should be sent to

Professor J. A. F. Rook,
Animal Production,
The Hannah Research Institute,
Ayr KA6 5HL, Scotland

Manuscripts are not returned with proofs; authors should therefore retain copies.

Units of measurement. The International System of Units (SI) should be used, with the recommendations and modifications in *Quantities, Units and Symbols*, The Royal Society, London, 1975, and *Metric Units, Conversion Factors and Nomenclature in Nutritional and Food Sciences*, The Royal Society, London, 1972—reproduced in *Proc. Nutr. Soc.* 31: 239-247, 1972.

Symbols and abbreviations. Authors should consult the notes prepared for guidance. Levels of statistical significance must be clearly indicated.

Illustrations. The same material should not normally be presented in tables and figures. Legends should be typed on a separate sheet.

- (a) Diagrams should be drawn in Indian ink, about twice the size of the finished block, on Bristol board, stout tracing paper or plastic film.

NEW FROM ISI®

INDEX TO SCIENTIFIC & TECHNICAL PROCEEDINGS™

There has never been an effective way to search the proceedings literature. Until now.

Now, ISI introduces the **Index to Scientific & Technical Proceedings**—the first multidisciplinary tool to conference proceedings and the individual papers published in them—the effective answer to the problem of searches in the proceedings literature.

Current and Comprehensive . . .

ISTP™ indexes 3,000 proceedings annually—over 80,000 individual papers—from conference proceedings published in book form and in the journal literature. Broad coverage includes: life sciences • clinical medicine • engineering and applied sciences • physical and chemical sciences • biological, environmental and energy sciences. ISTP is issued monthly and cumulated twice a year, so you get the index to proceedings shortly after their publication.

. . . and Effectively Indexed.

An unequalled system of indexes offers you effective searches with a minimum of starting information. You can locate complete entries of proceedings and papers—in an easy-to-read contents page format—with just a speaker's name . . . a sponsor . . . even a speaker's organizational affiliation. Or by conference topic, title words, or geographical location. And you get all the data you need to order books or request interlibrary loans. You even get first authors' addresses for reprint requests.

ISI's **Index to Scientific & Technical Proceedings** offers an effective new approach to locating the scientific and technical information in conference proceedings. Subscriptions will begin in 1978, at \$500 annually. Use the coupon below to enter your order today.

Please enter my subscription to **Index to Scientific & Technical Proceedings™** for 1978, at \$500 annually.

Please send more information.

Please send Air Mail Europe, South & Central America, add \$100 All other locations, add \$125 U.S.A., Canada & Mexico, not available
