

ATLAS OF THE BIBLE

by **L. H. Grollenberg OP**

translated and edited by
JOYCE M. H. REID BA and
Professor H. H. ROWLEY DD

THIS UNIQUE BOOK provides the most modern, original, and exhaustive background history to the Bible available. It draws from the vast fund of discovery and research accumulated during the last fifty years, including the El-Amarna archives, the Ugaritic texts, and the famous Dead Sea Scrolls. The *Atlas* does not concern itself with theology or dogma. Its sole aim is to provide a fuller understanding of the Bible. The maps, all specially drawn for the *Atlas*, depict not only relief and political divisions, but also show every Biblical locality—town, village, river, sea, mountain, valley and desert—which can be identified with reasonable certainty.

Over 400 outstanding photographs in gravure, the majority of which were taken for this work, many of them by the author, have been carefully chosen to illustrate several themes; the physical character of the Holy Land; the geographical setting of the Bible; the art and architecture of ancient civilisations; the achievements of Biblical archaeology, and the engrossing discoveries it has brought to light. The text provides a summary of Biblical history, from the nomad origins of the Chosen People to the Coming of Christ and the expansion of His Church.

The encyclopaedic 26-page index contains every place named in the Bible, with the main variants of spellings, as well as the names of people with notes on the more important personages.

*35 maps in eight colours, two end-paper maps in six colours,
408 photographs in gravure, 26-page index. 14" x 10½" 166pp*

They Saw His Glory

By Maisie Ward

"She has felt in her own experiences the need of a book which would make something of the great work of Scripture scholarship, work like Legrange's, available to the reader who cannot go to it himself. She has written such a book herself, and it seems to us a splendid success. After a brief 'background of the gospels' she takes you through each of them separately (and the Acts too, as being the continuation of St Luke) and lights up the significance of each section, with the help, and often with the actual words, of the great modern scholars, but all in the human and personal fashion that makes the gospel text come alive to people like you and me. A first-rate book, a much needed book, every staff-room needs it, and every grammar-school library."
