**RETHINKING HUMANITARIAN
INTERVENTION**

**A FRESH LEGAL APPROACH BASED ON
FUNDAMENTAL ETHICAL PRINCIPLES IN
INTERNATIONAL LAW AND WORLD RELIGIONS**

Brian D. Lepad

"Lepad provides a fresh exploration of legal and moral justifications for humanitarian intervention. . . . He opens new analytic vistas and provides a foundation for resolving conflicts over the content of the law. He applies the framework in masterly examinations of intervention in Bosnia, Somalia, Rwanda, Haiti, and Kosovo. Rarely do we see an author sustain as much sensitivity to opposing arguments while constructing a strong ethical basis for shaping diplomacy, ethics, and international law. This is a ground-breaking and, in its moral sweep, even a breath-taking book."

Decisions of the World Court Relevant to the UN Convention on the Law of the Sea – A Reference Guide

by *Barbara Kwiatkowska*

This pioneering publication provides A Reference Guide to the significant contribution made by decisions of the World Court, as the principal judicial organ of the United Nations and the world's most senior Court with the broadest material jurisdiction, to the development of the law of the sea as a part of the global system of peace and security. The Guide is dedicated to the Court's former President Stephen M. Schwebel in appreciation of his belief that it is important for the Court to further explore its pre-eminently unique role throughout the Third Millennium. Whereas the format of specific entries covered by this Reference Guide largely corresponds to the Parts and Annexes of the 1982 UN Law of the Sea Convention (LOSC) and the 1994 Part XI Agreement, the heading of each entry also contains, as appropriate, references to other global instruments.

The entries cover principally Judgments and Orders (including the related pleadings) of the PCIJ and the ICJ and those decisions of Arbitral Tribunals and other third party fora as well as national courts which have been relied upon in the Court's jurisprudence. In addition, the recent decisions of the ITLOS and some other fora, as well as references to treaties are also listed under specific entries as appropriate. Tables of Cases and Treaties will importantly facilitate the use of A Reference Guide. It will be an indispensable tool for judges, and governmental and other practitioners in furthering the coherent development of the law of the sea by international courts and tribunals, and for the international community of academics in the adequate assessing of this development.

Progressive Governance for the XXI Century Contribution to the Berlin Conference

edited by *Gerhard Schröder*

The topic of Progressive Governance which is the focus of this volume is today inconceivable without the global modernization process which has permeated our societies and our daily lives. The 14 reform-minded heads of State and government who discussed Progressive Governance in Berlin in June 2000 have above all else embraced this modernization process as an opportunity.

Governments are under great pressure to provide political responses to the visible and tangible process of globalization.

Particularly in the face of ever faster merging economies, the information revolution, unrestricted capital mobility and global culture change, people expect globalization to be managed politically and given democratic form.

Many innovative responses to the challenges of globalization, the knowledge society and demography are sketched out in the contributions in this book. The response of progressive governments to globalization is cooperation - a new international social covenant between markets, states and civil society. But, what it is about, in any case, is the best way towards development based on prosperity and justice. The contributions in this book could help to better define this best way.
