TO AVIATORS

LUBRICATION is one of the most important factors in the safety and success of an **Aviator**, and the best obtainable quality should invariably be chosen. During the **Flying Seasons 1909, 1910**, the whole of the **World's Records** made in England, and all of the **British Records** (with two exceptions), were accomplished by users of

BURBERRYS AVIATION OUTFIT.

Write for
 Brochure V.
 Burberry for
 Aeroplaning
 and patterns
 of Gabardine
 Post Free.

"GABARDINE" (Regd. Trade Mark) is
 only obtainable in Burberry Garments, all
 of which are labelled "BURBERRYS."

DESIGNED under the direction of expert aviators
 conversant with all requirements and the most
 practical methods of satisfying them.

WORKMANLIKE, this Burberry outfit combines
 perfect protection with absolute freedom. It is
 proof against rain and cold winds; yet maintains
 the natural ventilation; remarkably light weight,
 yet owing to closeness of weave so tough and
 durable that even broken stays cannot penetrate
 its dense texture.

GABARDINE—the material worn by Sir E.
 Shackleton during his heroic dash to the South
 Pole as a protection against wind and cold—is used
 for the outer fabric with a lining throughout of
 quilted Eiderdown or Camel Fleece, which main-
 tains phenomenal warmth under the most severe
 conditions.

*"I take this opportunity of thanking you for the suit
 I wore on my memorable flight, and feel I cannot re-
 commend the material too highly where warmth and
 comfort are required."*

C. GRAHAME-WHITE.
