# Journal of Pension Economics & Finance

## Editors

Steven Haberman, *Cass Business School, UK*

Moshe Milevsky, *York University, Canada*

J. Michael Orszag, *Watson Wyatt, UK*

The *Journal of Pension Economics & Finance (JPEF)* is the only academic journal focusing on the economics and finance of pensions and retirement income. The ageing population, together with the shrinking workforce, heralds a growing pensions crisis, which has become a key public policy issue in developed countries and elsewhere. *JPEF* provides a valuable and influential forum for international debate in this area.

The journal publishes original research papers, covering a variety of topics, including pension fund management, the regulation of pensions, and pensions and labour markets.
