**Max Planck Encyclopedia of International Procedural Law**  
The home of international law in practice

**GENERAL EDITOR**

Professor H el ene Ruiz Fabri, Director of the Max Planck Institute Luxembourg for International, European and Regulatory Procedural Law

The *Max Planck Encyclopedia of International Procedural Law* (MPEiPro) maps and analyzes the systems and processes through which international law is made, interpreted, and adjudicated in practice. It takes a broad view of international procedure, examining it from three different angles: technical points of procedure within specific institutions or across similar organizations; comparative accounts of families of institutions within specific subject areas or with similar functions; and theoretical, interdisciplinary entries.
