Molding Japanese Minds

The State in Everyday Life

Sheldon Garon

How has the Japanese government persuaded its citizens to save substantial portions of their incomes? And to care for the elderly within the family? What actually unites the Japanese to achieve so many economic and social goals that have eluded other polities? Here Sheldon Garon helps us to understand the intimate relationships everyday Japanese have with their government.

In a series of five compelling case studies, Garon demonstrates how average citizens have cooperated with government officials in the areas of welfare, prostitution, and household savings, and in controlling religious "cults" and promoting the political participation of women. In each case, we see Japanese citizens working closely with the state to recreate "community" and shape the thought and behavior of fellow citizens.

"Sheldon Garon does exactly what needs to be done in the field of modern Japanese history: he focuses on the most important agency of the prewar Japanese developmental state, namely, the Ministry of Home Affairs. His case studies are marvelously done, magnificently researched, and very provocative."—Chalmers Johnson, Japan Policy Research Institute

"Molding Japanese Minds provides the best discussion I have seen of the intricate relationship between Japanese state institutions and civil society."

Religions of Tibet in Practice

Edited by Donald S. Lopez, Jr.

Religions of Tibet in Practice is a landmark work, the first major anthology on the topic ever produced. The thirty-six chapters are testimony to the vast scope of religious practice in the Tibetan world, past and present. Each chapter contains a translation and a substantial yet accessible introduction by a leading scholar of Tibetan religions. This is the largest sourcebook on Tibetan religions ever assembled.

The T'ang Code

Volume II: Specific Articles

Translated by Wallace Johnson

This is the second and final volume of the annotated translation of a seminal Chinese legal text. *The T'ang Code*, written in 653 A.D., is the most important legal text in East Asian history. Not only is it China's earliest law code to survive in its entirety, influencing all subsequent Chinese law, but it has also served as a model for codes of law in other East Asian countries, including Japan, Korea, and Vietnam. This is the only translation of the T'ang code into a Western language.

"Wallace Johnson's magisterial integral translation makes this fundamental legal source available to western readers for the first time, in a meticulously accurate and consistent translation."—Denis Twitchett, Princeton University
