
What's new in NUTRITION?

Nutrition Research Reviews

- A new annual publication
- Authoritative, global reviews of recent research developments
- Invited contributions from internationally recognized experts
- Encourages the exchange of fundamental ideas between workers whose principal interest and practical concerns may lie in very different nutritional fields
- Covers the whole subject range

See also **The British Journal of Nutrition** and **The Proceedings of the Nutrition Society**, the established journals of The Nutrition Society, giving you original research, proceedings of symposia, highlight and comment.

Subscriptions

Nutrition Research Reviews (0954-4224) is published annually in November. Volume 3 (1990) is available for £39. **The British Journal of Nutrition** (0007-1145) is published six times a year in January, March etc. The 1990 subscription is available for £180 and includes *Nutrition Research Reviews*. **The Proceedings of the Nutrition Society** (0029-6651) is published three times a year in January, July and September. The 1990 volume is available for £81.

Send your order to: Journals Publicity Department, FREEPOST, Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 1BR, England (No postage stamp needed if posted within UK) or, Cambridge University Press, 40 West 20th Street, New York, NY 10011, USA, or write for a sample copy.

You can't afford not to read them!

Continued from back cover

Short communications

- A scheme for the partial fractionation of cheese peptides
M. O'SULLIVAN and P. F. FOX 135–139
- Repeatability of milk clotting aptitude evaluated by lactodynamographic analysis
A. CAROLI, P. BOLLA, G. PAGNACCO, M. RAMPILLO and L. DEGANO 141–142
- Measurement of proteolysis in milk and cheese using trinitrobenzene sulphonic acid
and a new dissolving agent
G. HUMBERT, M.-F. GUINGAMP, R. KOUOMEGNE and G. LINDEN 143–148
- Titration – a rapid method for the determination of proteolysis in cheese
P. OLLIKAINEN 149–151

JOURNAL OF DAIRY RESEARCH

Volume 57 Number 1 February 1990

CONTENTS

Original articles	Pages
The onset of mammary secretion of medium-chain-length triglyceride fatty acids in the cow milk pre-partum G. THOMPSON and A. FAULKNER	1-5
Ability of bovine mammary macrophages to enhance proliferation of autologous blood and mammary secretion lymphocytes C. CONCHA and O. HOLMBERG	7-16
Compensatory milk production within the bovine udder: effects of short-term non-milking of single quarters J. HAMANN and J. REICHMUTH	17-22
Fatty acid composition and milk quality related to feeding Ca-saponified palm acid oil to different breeds of dairy cows J. E. HERMANSEN and P. LUND	23-31
Effect of cleaning-in-place disinfectants on wild bacterial strains isolated from a milking line T. MATTILA, M. MANNINEN and A.-L. KYLÄSIUROLA	33-39
Composition of Alpine goats' milk during lactation in Greece L. VOUTSINAS, C. PAPPAS and M. KATSIARI	41-51
Milk protein polymorphism in Danish dairy cattle and the influence of genetic variants on milk yield A.-M. BECH and K. R. KRISTIANSEN	53-62
Ion-exchange fast protein liquid chromatography: optimization of the purification of caseins using a non-denaturing detergent M. ST-MARTIN and P. PAQUIN	63-68
Repression of <i>Pseudomonas fluorescens</i> extracellular lipase secretion by arginine I. fernández, c. san josé and R. C. MCKELLAR	69-78
Proline specific peptidases of <i>Streptococcus cremoris</i> AMS M. BOOTH, W. J. DONNELLY, I. NI FHAOLÁIN, P. V. JENNINGS and G. O'CUINN	79-88
Purification and characterisation of a post proline dipeptidyl aminopeptidase from <i>Streptococcus cremoris</i> AM2 M. BOOTH, I. NI FHAOLÁIN, V. JENNINGS and G. O'CUINN	89-99
A study of surface hydrophobicity of milk proteins during enzymic coagulation and curd hardening C. PERI, A. PAGLIARINI, S. IAMETTI and F. BONOMI	101-108
Effects of chromatographically pure bovine chymosin and pepsin A on cheese curd firmness A. ANDRÉN and C. VON REEDTZ	109-117
Influence of chromatographically pure bovine chymosin and pepsin A on cheese curd synthesis H. ANDERSSON and A. ANDRÉN	119-124
Characterization of wild strains of <i>Lactococcus lactis</i> subsp. <i>lactis</i> isolated from Cabrales cheese B. MAYO, C. HARDISSON and A. F. BRAÑA	125-134
