'HAZELINE'

AND ITS PREPARATIONS.

'HAZELINE' is prepared from the fresh green bark of the witch hazel, and retains in full the styptic, astringent and anodyne principles of the plant.

Small and large bottles, 1s. 2d. and 3s. 6d. each.

'HAZELINE' CREAM combines the properties of 'Hazeline' with the emollient quality of 'Lanoline.' It is therefore a valuable application for the skin under many conditions.

In collapsable tubes, 5d. and 9d., and in glass pots, 9d. each.

'HAZELINE' SNOW contains 50 per cent. of 'Hazeline,' and is an agreeable application of great value when greasy preparations are objectionable.

In glass pots, 9d. each.
