<b>In the Pipeline for November 2024</b>	
The optimal tennis serve: a mathematical model	<i>David Seppala-Holtzman</i>
The next number in the sequence	<i>John D. Mahony</i>
The first derivative test and the classification of stationary points	<i>Lorenzo di Biagio</i>
Inverse tangent series via telescoping sums	<i>Russell A. Gordon</i>
A geometric proof of the binomial identity	<i>Frantisek Marko, Semyon Litvinov</i>
Recursive averages and the renewal theorem	<i>G. J. O. Jameson</i>
Reciprocally Related Primes	<i>Damjan Kobal</i>
A generalisation of a theorem of al-Kuhi	<i>Sadi Abu-Saymeh, Mowaffaq Hajja</i>
Algebraic and geometric definitions of the cross product: the link	<i>François Dubeau</i>
Another generalisation of Stewart's Theorem	<i>Panagiotis T. Krasopoulos</i>
Sums of Distinct Fifth Roots of Unity and the Regular Dodecahedron	<i>Ian Stewart</i>
