

Nutrition Research Reviews, published annually by Cambridge University Press, presents authoritative and critical reviews of research that advance new concepts and encourage fresh thinking on a variety of nutritional problems. The journal's main objective is to encourage the exchange of fundamental ideas on nutritional well-being. The subscription (excluding VAT) to volume 8, 1995, is £49 including postage (US \$89 in USA, Canada and Mexico).

The Proceedings of the Nutrition Society, published by Cambridge University Press, in part record meetings of the Symposium type, at which experts in a particular field are invited by Council to make contributions on specific parts of it and at which general discussion follows these invited contributions. The meetings also include sessions at which papers are communicated by members and others on original work. It is proposed at present to publish summaries of the papers read at each meeting, each communication being recorded in the Society's *Proceedings* by means of an abstract not exceeding in length 400 words or the equivalent space in print. The *Proceedings* are published three times a year.

The subscription (excluding VAT) to the *Proceedings* is £126.00 (US \$240.00 in USA, Canada and Mexico). Single issues are £44.00 (US \$85.00 in the USA, Canada and Mexico) each; postage extra.

Copying. This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of the US copyright law) subject to payment to C.C.C. of the per-copy fee of \$11.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0007-1145/95 \$11.00+.10. Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

ISI Tear Sheet Service, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

CONTENTS

Editorial

Multiplying publications. *D. A. T. Southgate* 489-490

Post-ruminal digestion in cattle

The role of the large intestine in post-ruminal digestion of feeds as measured by the mobile-bag method in cattle. *Aila Vanhatalo & Elise Ketoja* 491-505

Dietary assessment and body composition

Body mass index: a measure of fatness or leanness? *Alan M. Nevill & Roger L. Holder* 507-516

The reproducibility of subjective appetite scores. *Anne Raben, Anna Tagliabue & Arne Astrup* 517-530

Validation of weighed records and other methods of dietary assessment using the 24 h urine nitrogen technique and other biological markers. *S. A. Bingham, A. Cassidy, T. J. Cole, A. Welch, S. A. Runswick, A. E. Black, D. Thurnham, C. Bates, K. T. Khaw, T. J. A. Key & N. E. Day* 531-550

Food intake in a West African village. Estimation of food intake from a shared bowl. *Geoffrey J. Hudson* 551-569

Energy expenditure of the elderly

Energy expenditure, physical activity and basal metabolic rate of elderly subjects. *Daphne L. E. Pannemans & Klaas R. Westerterp* 571-581

Antithrombic peptides from casein in newborn

Characterization of an antithrombotic peptide from κ -casein in newborn plasma after milk ingestion. *Beatrice Chabance, Pierre Jollès, Carmen Izquierdo, Elisabeth Mazoyer, Christine Francoual, Ludovic Drouet & Anne-Marie Fiat* 583-590

Single-cell protein diets for trout

Feed consumption, growth and growth efficiency of rainbow trout (*Oncorhynchus mykiss* (Walbaum)) fed on diets containing a bacterial single-cell protein. *W. M. K. Perera, C. G. Carter & D. F. Houlihan* 591-603

Trans fatty acid metabolism

The proportion of *trans* monounsaturated fatty acids in serum triacylglycerols or platelet phospholipids as an objective indicator of their short-term intake in healthy men. *Ronald P. Mensink & Gerard Hornstra* 605-612

Glycaemic index of foods containing sugar

The glycaemic index of food containing sugars: comparison of foods with naturally-occurring v. added sugars. *Janette Brand Miller, Edna Pang & Louise Broomhead* 613-623
