

## GENERAL INFORMATION

<https://www.cambridge.org/core/journals/canadian-mathematical-bulletin/information>

The CMS publishes two research journals: the Canadian Journal of Mathematics (CJM) for longer papers, and the Canadian Mathematical Bulletin (CMB) for shorter papers. To be submitted to CJM, papers should be at least 18 pages long. Shorter papers should be submitted to the CMB. All submitted papers are considered subject to the understanding that they have not been published and that they are not being considered for publication elsewhere. To be accepted, papers must treat new mathematical research, be well written, and be of interest to a significant segment of the mathematical community. Papers may be written in English or French. Manuscripts must be prepared in accordance with the instructions for authors provided at

<https://www.cambridge.org/core/journals/canadian-mathematical-bulletin/information/information-for-author>

## SUBSCRIPTION INFORMATION

Subscription rates can be found at

<https://www.cambridge.org/core/journals/canadian-mathematical-bulletin/subscribe>

Members of the CMS are entitled to a reduced subscription rate. For more information, please contact the CMS at [memberships@cms.math.ca](mailto:memberships@cms.math.ca).

### CANADA POSTMASTER

Canadian Mathematical Bulletin  
Publications Mail Registration:

40005057

Send address changes to:

Journals Fulfillment Department, Cambridge University Press, One Liberty Plaza, New York, NY 10006

### CANADIAN MATHEMATICAL BULLETIN

(USPS # 007527) is published 4 times per year, quarterly (March, June, September, December). Published by Cambridge University Press, One Liberty Plaza, New York, NY 10006 on behalf of the Canadian Mathematical Society. US Mailing Agent: Sheridan Press, 450 Fame Ave., Hanover, PA 17331 USA.

Periodicals postage paid at New York, NY and at additional mailing offices.

US POSTMASTER: Send address changes to Journals Fulfillment Department, Cambridge University Press, One Liberty Plaza, New York, NY 10006.

## RENSEIGNEMENTS GÉNÉRAUX

<https://www.cambridge.org/core/journals/canadian-mathematical-bulletin/information>

La SMC publie deux revues de recherche : le Journal canadien de mathématiques (JCM) qui présente des articles longs et le Bulletin canadien de mathématiques (BCM) des articles plus courts. Les articles destinés au JCM doivent compter au moins 18 pages. Les articles plus courts doivent être acheminés au BCM. Il est entendu que les articles présentés pour publication sont inédits et qu'ils ne sont pas à l'étude pour publication dans d'autres revues. Un article accepté porte sur des recherches récentes, est bien rédigé et s'avère susceptible d'intéresser bon nombre de mathématiciens. Nous acceptons les articles rédigés en langues anglaise ou française. Les articles doivent répondre aux conventions énoncés pour les auteurs au

## ABONNEMENTS

Les tarifs d'abonnements sont disponibles en ligne au

<https://www.cambridge.org/core/journals/canadian-mathematical-bulletin/subscribe>

Les membres de la SMC ont droit à un taux d'abonnements réduits. Pour plus amples renseignements, veuillez contacter la SMC à [adhesions@smc.math.ca](mailto:adhesions@smc.math.ca).

### POSTES CANADIENNES

Bulletin canadien de mathématiques

No. d'enregistrement du courrier publications:  
40005057

Envoyer les changements d'adresses aux :

Journals Fulfillment Department, Cambridge University Press, One Liberty Plaza, New York, NY 10006

### BULLETIN CANADIEN DE MATHÉMATIQUES

(USPS # 007527) est publié 4 fois par an, tous les trimestres (mars, juin, septembre, décembre). Publié par Cambridge University Press, One Liberty Plaza, New York, NY 10006 au nom de la Société mathématique du Canada. Agent de poste US: Sheridan Press, 450 Fame Ave., Hanover, PA 17331 USA.

Postes payé à New York, et autres bureaux de diffusion supplémentaires.

POSTES AMÉRICAINES: Envoyer les changements d'adresses aux Journals Fulfillment Department, Cambridge University Press, One Liberty Plaza, New York, NY 10006.

705	Positive Definiteness on Products of Compact Two-point Homogeneous Spaces and Locally Compact Abelian Groups	<i>V. A. Menegatto, C. P. Oliveira</i>
716	Derivatives of Blaschke Products and Model Space Functions	<i>David Protas</i>
726	Non-convex Optimization via Strongly Convex Majorization-minimization	<i>Azita Mayeli</i>
738	Irregularities in the Distribution of Prime Numbers in a Beatty Sequence	<i>Janyarak Tongsoomporn, Jörn Steuding</i>
744	Concordance, Crossing Changes, and Knots in Homology Spheres	<i>Christopher W. Davis</i>
755	On Open Book Embedding of Contact Manifolds in the Standard Contact Sphere	<i>Kuldeep Saha</i>
771	Sharp Bounds for Oscillatory Integral Operators with Homogeneous Polynomial Phases	<i>Danqing He, Zuoshunhua Shi</i>
787	Slow Continued Fractions and Permutative Representations of $\mathcal{O}_N$	<i>Christopher Linden</i>
802	Two-graphs and the Embedded Topology of Smooth Quartics and its Bitangent Lines	<i>Shinzo Bannai, Momoko Ohno</i>
813	Operators on Anti-dual pairs: Self-adjoint Extensions and the Strong Parrott Theorem	<i>Zsigmond Tarcsay, Tamás Titkos</i>
825	Ideals of the Quantum Group Algebra, Arens Regularity and Weakly Compact Multipliers	<i>Mehdi Nemati, Maryam Rajaei Rizi</i>
837	Limiting Properties of the Distribution of Primes in an Arbitrarily Large Number of Residue Classes	<i>Lucile Devin</i>
850	Primitive Points in Rational Polygons	<i>Imre Bárány, Greg Martin, Eric Naslund, Sinai Robins</i>
871	Translates of Functions on the Heisenberg Group and the HRT Conjecture	<i>B. Currey, V. Oussa</i>
882	Essential Dimension, Symbol Length and $p$ -rank	<i>Adam Chapman, Kelly McKinnie</i>
891	SNC Log Symplectic Structures on Fano Products	<i>Katsuhiko Okumura</i>
901	Moduli Spaces of Metrics of Positive Scalar Curvature on Topological Spherical Space Forms	<i>Philipp Reiser</i>
909	Generalized $\mathcal{D}$ -Einstein Real Hypersurfaces in $\mathbb{C}P^2$ and $\mathbb{C}H^2$	<i>Yaning Wang</i>
921	Growth of Fine Selmer Groups in Infinite Towers	<i>Debanjana Kundu</i>
