LOVE AMONG THE SAINTS

This is a new translation of the letters of Blessed Jordan of Saxony, first Master General after St Dominic of the Order of Preachers, to Blessed Diana of Andalo, foundress of the Dominican convent of St Agnes of Bologna. While the book is actually devoted to the exhortations of Blessed Jordan to his spiritual daughter, they also present a fascinating sidelight on the religious life of the early thirteenth century and the birth of a great religious order. Approx. 13s. 6d.

THAT THEY MAY BE ONE

A Study of Papal Documents

Gregory Baum, O.S.A.

This scholarly work is a comprehensive study of modern Papal Documents (Leo XIII-Pius XII) on the theme of unity, by which the author tries to present the doctrine of unity as it is shown in the official pronouncements of the Church. No other work, so completely documented, is currently available and this contribution to the 'ecumenical dialogue' will be a most valuable source book for students of all denominations. (Formerly announced as *Christian Unity*.)

FAMILY DOCTOR AND FAMILY PROBLEMS

K. F. M. Pole

A much-needed, and essentially practical book written by a man who is an expert in every subject which he touches on even lightly. Written from the point of view of the 'Family Doctor' who knows intimately every member of the family under his care and the individual problems of each, and dedicated to 'all those who, in the union of love, strive to make this world a better place to live in'. As a complete guide for all Catholics on a most difficult theme, this book is to be strongly recommended. Approx. 10s. 6d.

The English Religious Heritage

The purpose of this comprehensive work is to introduce readers to the growth of the spiritual life according to the English idiom coined during the later middle ages. This idiom has largely been lost to the English tongue through the supervention of the Spanish, French, and Italian spiritualities which have carried the day since the counter reformation. A learned yet readable work such as this will do much to reintroduce Catholics to the ancient heritage which they have tended to ignore for so long.

Riches Despised

'Any enquirer eager to find some explanation of that mysterious instinct in him which we call religion will find satisfaction in these pages. . . . It will come as a tonic to those who perhaps through no fault of their own but due to the force of modern circumstances of city life and industrialisation may find themselves asking the question: is life worth living? To them we say: Take and read.'

The Three Degrees

'Those who are looking for a reliable introduction to Christian mysticism will find in this book what they need. In the first part of the discussion, Father Pepler deals with the foundations of mysticism in the doctrine of the Incarnation and Eucharist, while in the second part he examines the structure of mysticism and has some stimulating chapters on the nature of mysticism, psychologies of mysticism, norms of mysticism and the unity of mystical experience. The writer's treatment rests upon a first-hand study of mystical writings and is agreeably free from the unbalanced and uncritical approach which has marred so many excursions into this field.'
