ROBERT M. RIGGALL, Member, British Psycho-Analytical Society.

pure
thyroid hormone:
practical synthesis

Recognising the need for a standard form of thyroid medication, capable of being given in precise dosage, Glaxo Laboratories carried through a research project to evolve an entirely new synthesis of the thyroid hormone. Success came in far greater measure than was at first envisaged, for the process ultimately devised made it possible to manufacture the physiologically active *laevo* thyroxine free from the comparatively inert *dextro* form.

L-Thyroxine-sodium *Glaxo* is the pure *crystalline thyroid hormone*. By its very nature, it is free from the variations in therapeutic efficacy that may be associated with extracts of the thyroid gland. Relative potency is indicated by the fact that about 1 grain of thyroid B.P. may be taken as equivalent to 0.1 mg. of the Glaxo material.

ADVANCE IN
thyroid therapy

L-THYROXINE-SODIUM *Glaxo*

TABLETS (0.05 mg. and 0.1 mg.) : in bottles of 100 and 1,000

CONTRIBUTIONS TO CLINICAL RESEARCH

One of a series outlining some of the activities of
Boots Pure Drug Co. Ltd.
Nottingham, England

Information Service

THIS PART of the Boots organisation is centred on an extensive library and abstracting service. Scientific knowledge is carefully correlated and doctors' queries are answered.

Research staffs make frequent visits to national and international conferences, at which details of current problems and progress are noted.

Contact is also maintained with research workers in teaching hospitals and research institutes.

Other activities in support of clinical research are Clinical Trials, Laboratory Work, Factory Work, Research Committees, and Field Research.

BOOTS PURE DRUG COMPANY LIMITED NOTTINGHAM ENGLAND

ELIXIR GABAIL

(BROMO-VALERIANATE)

The Ideal Sedative in all Nervous Affections

Elixir Gabail combines the sedative action of Bromide and Chloral Hydrate with the nervine and anti-spasmodic deodorised Valerianate. Pharmaceutically it is as pleasant and palatable as it is efficacious from the therapeutic standpoint, the disagreeable odour and flavour of the Valerian having been completely removed without in any way impairing its therapeutic value.

In Hysteria and Psychasthenia it relieves nervous excitement and produces a calm state of mind that is conducive to rapid recovery. It is also of value in states of temporary emotional excitement, in Hypochondriasis and Melancholia.

Dosage: One tablespoonful in water twice or thrice daily. As a hypnotic: two tablespoonfuls in water at bedtime.

Supplied in bottles of 187 c.c., 16 ozs., and in 40 oz. and 80 oz. Dispensing Packs.

Literature and Samples on request.

GLOUCESTER

CRICKLEY COURT—ONE OF THE SEPARATE VILLAS

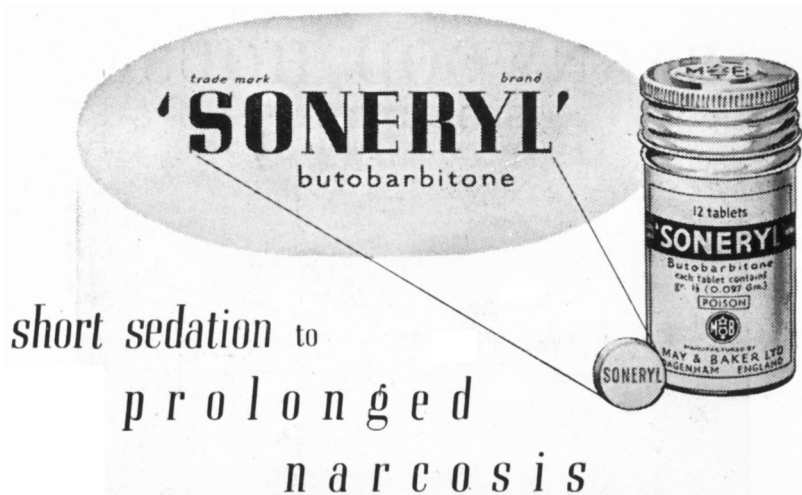

A REGISTERED HOSPITAL, (outside the National Health Service) for the **CARE** and **TREATMENT** of **LADIES** and **GENTLEMEN** suffering from **NERVOUS** and **MENTAL DISORDERS**. Within two miles of the Western and London Midland Regional Railway Stations at Gloucester, the Hospital is easily accessible by rail from London and all parts of the United Kingdom. It is beautifully situated at the foot of the Cotswold Hills, and stands in its own grounds of over 300 acres. Voluntary Patients of both sexes are also received for treatment. Special accommodation is also provided at three villa residences, all of which stand in their own grounds and are entirely separate from the main Hospital. All the most modern methods of treatment including electric shock and prefrontal leucotomy are used.

Physician Superintendent,

who may be seen in London by appointment

TELEPHONE: No. 66207 GLOUCESTER

One of the advantages of 'Soneryl' is the ease with which, by graduating the dose, the degree of action may be varied from the mildly sedative to the deeply hypnotic.

This is of particular interest in psychiatric practice for it enables the one drug to be used as a hypnotic in all the mental states from simple anxiety to intractable psychosis. It may be given for long periods with minimal side effects.

Generally 'Soneryl' is given orally in tablets (grains $1\frac{1}{2}$ in each), but for cases in which it is impracticable to give the drug by mouth, suppositories containing three, five or ten grains of 'Soneryl' are available.

Tablets in containers of 12, 25, 100, and 500

Suppositories of gr. 3, gr. 5, and gr. 10, in boxes of 5

OUR MEDICAL INFORMATION DIVISION WILL BE PLEASED TO SEND A COPY OF THE MEDICAL BOOKLET 'M & B BARBITURATES IN GENERAL PRACTICE' ON REQUEST.
