LOGAN TURNER PRIZE.

The Logan Turner Prize has been awarded to Dr. Munro Cameron of Glasgow for his paper on "The part played by allergy or sensitization as a factor in predisposing the mucous membrane of the nasal passages and the paranasal air sinuses to infection and its bearing upon the treatment of disease of these cavities".

Peroral Endoscopy Table

Fitted with Head Rest for BRONCHOSCOPY, ŒSOPHAGOSCOPY,
NASAL OPERATIONS Etc.

Designed by V. E. NEGUS, M.B., B.S., F.R.C.S.

The head rest enables the operator himself to place the patient in the desired position for a variety of operations. All parts touched by the operator are sterilisable.

The apparatus is an elaboration of Haslinger's Bronchoscopic head rest, but its range of utility is extended to enable the patient to be supported with the shoulders beyond the end of the table for œsophagoscopy, and to be kept in the correct attitude during operations performed in the sitting or semi-sitting position.
