NOTES FOR AUTHORS

Submitting a paper

Full details on submitting a paper, including the style guide and L^AT_EX class file and macro package, can be found at <http://www.icms.org.uk/activities/proca.php>

Proceedings of the Royal Society of Edinburgh: Section A considers for publication papers in all areas of mathematics. Please note that this journal does not consider simultaneous submissions from the same author.

- Authors will be asked to state the primary AMS 2010 Classification Number and between three and six keywords.
- Authors should nominate the most appropriate Editor for their paper.
- It is assumed that the author uploading the paper will be responsible for correspondence. A paper by more than one author should be approved in its entirety by the joint authors. An acknowledgement e-mail will be sent to all authors.
- Proceedings A has a page limit of 25pp but may consider papers up to five pages longer to allow for variation in final typeset length. Authors must prepare their papers as concisely as possible. Longer papers can be difficult to review in a reasonable time and can be judged more harshly.
- Each paper must be accompanied by an abstract, in general not exceeding 200 words, which will be printed.
- References should be listed at the end of the paper in alphabetical order, numbered sequentially. References within the text should be indicated by numbers in square brackets.

To submit your paper visit https://rse.msp.org/submit_new.php?jpath=rse_proc_a_math and follow the instructions for uploading.

Once a paper has been accepted for publication, authors will be asked to supply the appropriate file. This should be a single file, with any relevant macros included in the preamble, and named after the article reference number (e.g. 150421-authorname.tex). Figures should be submitted as eps or pdf files at the same time as the code for the paper. Detailed instructions will be given on acceptance.

Language

We recommend that non-English-speaking authors have their manuscripts checked by an English language native speaker before submission, to ensure that submissions are judged exclusively on academic merit. Third-party services specialising in language editing and/or translation can be found here: <https://www.cambridge.org/core/services/authors/language-services>. Use of any of these services is voluntary, and at the authors' own expense.

Proofs and offprints

Authors will be sent proofs of their paper by e-mail in pdf format for checking. A pdf of the final 'publisher's version' of the paper will be sent to the corresponding author shortly after print publication in lieu of hard copy offprints.

Copyright/Open Access

The RSE now operates a 'hybrid' Open Access model for its journals, for accepted papers submitted on or after 1 April 2013. On acceptance, authors will be given the option of having their paper published **either** under a regular publication agreement **or** under a fully Open Access agreement. Under the regular publication option, authors will be asked to sign the Journal's standard transfer of copyright form.

If authors choose the Open Access option, they will be asked to sign the alternative Open Access form and, upon payment of a one-off Article Processing Charge of UK£1780/US\$2835 (in 2017), the final published Version of Record shall be made freely available to all in perpetuity, and will be published under a creative commons licence, enabling its free re-use and re-distribution.

Please note that publication under a fully Open Access agreement is part of the Cambridge Open option. (For more details, please see: <https://www.cambridge.org/core/services/open-access-policies>)

Authors are also asked to ensure that any electronic versions of their paper clearly state the official place of publication.

Except as otherwise permitted under the Copyright, Designs and Patents Act, 1988, papers published in *Proceedings A* may only be reproduced, stored or transmitted with the prior permission of the copyright holder, or, in the case of reprographic reproduction, in accordance with the terms of a licence issued by the Copyright Licensing Agency. The Society permits the making of a single photocopy of an article from an issue (under Sections 29 & 38 of the Act) for an individual for the purposes of research or private study.

PROCEEDINGS OF THE ROYAL SOCIETY OF EDINBURGH

(Section A)

Volume 149

2019

Part 1

CONTENTS

J. LLIBRE AND X. ZHANG	
The non-existence, existence and uniqueness of limit cycles for quadratic polynomial differential systems	1–14
S. ESTRADA AND J. GILLESPIE	
The projective stable category of a coherent scheme	15–43
P. MCKENNEY AND A. VIGNATI	
Ulam stability for some classes of C^* -algebras	45–59
D. D. MONTICELLI, K. R. PAYNE AND F. PUNZO	
Poincaré inequalities for Sobolev spaces with matrix-valued weights and applications to degenerate partial differential equations	61–100
A. KOREPANOV, Z. KOSLOFF AND I. MELBOURNE	
Explicit coupling argument for non-uniformly hyperbolic transformations	101–130
G. JARAMILLO, A. SCHEEL AND Q. WU	
The effect of impurities on striped phases	131–168
H. WU, D. YANG AND J. ZHANG	
Oscillation and variation for the Riesz transform associated with Bessel operators	169–190
R. BAUER, W.-P. DÜLL AND G. SCHNEIDER	
The Korteweg–de Vries, Burgers and Whitham limits for a spatially periodic Boussinesq model	191–217
F. A. GALEGO AND A. F. PAZOTO	
On the well-posedness and asymptotic behaviour of the generalized Korteweg–de Vries–Burgers equation	219–260
W. ARRIAGADA	
Parametric rigidity of real families of conformal diffeomorphisms tangent to $x \rightarrow -x$	261–277
