

# ANIMAL PRODUCTION

JOURNAL OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

**OLIVER & BOYD LTD.**  
EDINBURGH AND LONDON

**OCTOBER 1961**

**VOL. 3 PART 3**

# INFORMATION FOR CONTRIBUTORS TO *ANIMAL PRODUCTION*

*Animal Production* publishes papers on original research provided that they have not been, and will not be, published elsewhere in whole, or in part, without the Editors' written permission. Contributions may be in the field of animal production, or in any related scientific field. Papers presented at meetings of the British Society of Animal Production, if submitted to the Editors, will be given equal consideration with other papers.

*Animal Production* is published three times a year, each number consisting of about 96 pages. Annual subscription for every 3 numbers is 45s. (or \$7.50 in the U.S.A. and Canada) and the price for a single number is 17s. 6d. (or \$2.75).

*Length of papers* should not normally exceed the equivalent of 6,000 words, inclusive of tables, text figures and references.

*Manuscripts* should be typed in double spacing and the ribbon copy sent to one of the Editors at the addresses given below. Manuscripts are not returned with the proofs; authors should therefore retain copies.

*Illustrations* (figures and plates) should be simple and few, otherwise a charge may have to be made to authors. Legends should be typed on a separate sheet.

- (a) Diagrams should be drawn in Indian ink, about twice the size of the finished block, on Bristol board or stout tracing paper. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be inserted in Indian ink. Marginal lettering may, if preferred, be inserted lightly in pencil. Costs of touching-up diagrams found to be incomplete or unsuitable for line-block reproduction will be charged to authors.
- (b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the Editors. Part of their cost may have to be borne by authors.
- (c) Colour plates will not be accepted unless the author bears the cost.

TECHNICAL COMMUNICATION NO. 14

**THE INDIGENOUS LIVESTOCK OF  
EASTERN AND SOUTHERN AFRICA**

by I. L. Mason and J. P. Maule

150 pp.

180 illustrations and 3 maps

Price 45s.

The book provides a comprehensive description of all types of livestock in the area east of a line drawn from the Northern Sudan to the mouth of the Congo. Measurements and liveweights, as well as an indication of performance, given where possible, and there is a complete bibliography.

“The information given in this book should form a guide as to which of the various types it will be worth while to concentrate on for improvement in production . . .”

Sir John Hammond in *Nature*.

The book is indispensable to anyone connected with the livestock industry in Africa.

*Orders and subscriptions can be placed with any  
major bookseller or sent to :*

# ANIMAL BEHAVIOUR

Editor: Alastair N. Worden

*Animal Behaviour* is issued twice a year in April and October. It publishes original papers on animal behaviour and related subjects from contributors in many countries. Reports of researches, book reviews and correspondence are included, as are reports of the Proceedings of the Association for the Study of Animal Behaviour and the Section of Animal Behavior and Sociobiology (Ecological Society of America and American Society of Zoologists), of which it is the official journal.

Some of the contents of the current issue include:

*H. C. Chiang.* Ecology of Insect Swarms.

I. Experimental studies of the behaviour of *Anarete Johnsoni*, felt in artificially induced swans (Cecidonayudae, Diptera).

*P. L. Broadhurst.* Analysis of maternal effects in the Inheritance of Behaviour.

*R. Mitchell.* Behaviour of the larvae of *Arrenecous fissicomis* marshall, a water mite parasite on dragonflies.

*Barbara Abercrombie and H. James.* The Stability of the Domestic Chick's Response to Visual Flicker.

*H. S. Siegel and P. B. Siegel.* The Relationship of Social Competition with Endocrine Weights and activity in Male Chickens.

*J. A. King.* Swimming and Reaction to Electric shock in Two Sub-species of Deermice (*Peromyscus maniculatus*) during Development.

*I. C. Kaufman and R. A. Hinde.* Factors Influencing Distress Calling in Chicks, with special reference to temperature changes and social isolation.

Annual Subscription 50s., U.S.A. & Canada \$8.00

**BAILLIÈRE, TINDALL & COX**

## The Journal of Dairy Research

CONTENTS OF VOL. 28, No. 3. OCTOBER 1961 25s.

### List of Shortened Titles

- The effect on milk yield of three times a day milking, and of increasing the level of residual milk. GILLIAN M. ELLIOTT.
- The influence of *Str. lactis* and *Str. cremoris* on the flavour of Cheddar cheese. K. D. PERRY.
- The effect of level of concentrate feeding before and after calving on the production of dairy cows. M. E. CASTLE and J. N. WATSON.
- Enhancement of the flavour of Cheddar cheese by adding a strain of micrococcus to the milk. P. S. ROBERTSON and K. D. PERRY.
- A laboratory method for the investigation of milk deposits on heat exchange surfaces. H. BURTON.
- Estimation of oestrogenic activity in red clover using ovariectomized immature mice. R. E. MUNFORD and D. S. FLUX.
- Microscopic observations on the dispersibility of milk powder particles. N. KING and P. D. SHIMMIN.
- Gas packing milk powder using nitrogen and hydrogen in the presence of palladium. J. ABBOT, R. WAITE and J. F. HEARNE.
- The occurrence of pyridoxamine phosphate in milk. MARGARET E. GREGORY and L. A. MABBITT.
- Reviews of the progress of dairy science. Section B. Bacteriology. The flavour of Cheddar cheese. L. A. MABBITT.

Cambridge University Press, Bentley House, 200 Euston Road, London, N.W.1

## THE JOURNAL OF AGRICULTURAL SCIENCE

VOL. LVII, PART 1, AUGUST 1961

- RYLE, MARGARET. Early reproductive failure of ewes in a hot environment. I. Ovulation rate and embryonic mortality.
- SLEE, J. and CARTER, H. B. A comparative study of fleece growth in Tasmanian Fine Merino and Wiltshire Horn ewes.
- WIENER, GERALD. Population dynamics in fourteen lowland breeds of sheep in Great Britain.
- WIDDOWSON, F. V., PENNY, A. and WILLIAMS, R. J. B. Experiments with nitrogen and potash on barley.
- TODD, J. R. Magnesium in forage plants. II. Magnesium distribution in grasses and clovers.
- LAMPKIN, G. H., HOWARD, D. A. and BURDIN, M. L. Studies on the production of beef from zebu cattle in East Africa. III. The value of feeding a phosphatic supplement.
- ROBERTSON, I. S. The influence of turning on the hatchability of hens' eggs. I. The effect of rate of turning on hatchability. II. The effect of turning frequency on the pattern of mortality, the incidence of malpositions, malformations and dead embryos with no somatic abnormality.
- CHAMBERS, D. T. Grass as a food for the calf. I. The value of cut grass in the diet of the unweaned calf in comparison with hay and concentrates. II. The effects of feeding grass or concentrates-with-hay during the pre-weaning period on the intake and utilization of grass during the post-weaning period.
- BOLTON, W. The effects of supplemental detergents on the digestibility of poultry diets.
- ALLEN, D. M. and LAMMING, G. E. Some effects of nutrition on the growth and sexual development of ewe lambs.
- STORRY, J. E. Studies on calcium and magnesium in the alimentary tract of sheep. I. The distribution of calcium and magnesium in the contents taken from various parts of the alimentary tract. II. The effect of reducing the acidity of abomasal digesta *in vitro* on the distribution of calcium and magnesium.
- EVANS, R. E. The protein-saving action of synthetic lysine and methionine.
- CH'ANG, T. S. Reproductive performance of New Zealand Romney sheep grazed on red clover (*Trifolium pratense*) pastures.
- ROBINSON, T. J. The time of ovulation and efficiency of fertilization following progesterone and pregnant mare serum treatment in the cyclic ewe.
- LINDSAY, D. R., and ROBINSON, T. J. Studies on the efficiency of mating in the sheep. I. The effect of paddock size and number of rams. II. The effect of freedom of rams, paddock size, and age of ewes.

Articles are illustrated with plates and figures

*The Journal of Agricultural Science* is issued bi-monthly. Subscription (60s. per volume of three parts, two volumes yearly) may be sent to any Bookseller, or to the Cambridge University Press, Bentley House, 200 Euston Road, London, N.W.1.

# THE BRITISH JOURNAL OF NUTRITION

## PUBLISHED FOR THE NUTRITION SOCIETY

*Vol. 15, No. 3 Shortened Versions of Titles 1961 35s. net*

- Release of vitamin A from liver. By W. A. MCGILLIVRAY.
- Conversion of carotenoids into vitamin A. By W. A. MCGILLIVRAY.
- Cassava diets for pigs in Nigeria. By V. A. OYENUGA.
- Nutritive value of traditionally ground cereals in Southern Rhodesia. By W. R. CARR.
- The metabolism of nitrogen, calcium and phosphorus in undernourished children. 7. Effect of replacing rice in diet by pearl millet. By P. P. KURIEN, M. SWAMINATHAN and V. SUBRAHMANYAN.
- Magnesium in ruminant nutrition. 3. By A. C. FIELD.
- Intramuscular infusions of fatty acids, and yield and composition of milk. By J. A. F. ROOK and C. C. BALCH.
- Saliva secretion and its relation to feeding in cattle. 1. By C. B. BAILEY and C. C. BALCH.
- Saliva secretion and its relation to feeding in cattle. 2. By C. B. BAILEY and C. C. BALCH.
- Availability of lysine in groundnut biscuits used in the treatment of kwashiorkor. By K. J. CARPENTER and BERYL E. MARCH.
- Illness, calcium intake and rate of skeletal maturation in children. By AUDREY CAHN and A. F. ROCHE.
- Nutritive value of lucerne-leaf proteins. By B. K. SUR.
- Effect of tocopherol, vitamin A, selenium and anti-oxidants on ubiquinone in the rat. By A. T. DIPLOCK, E. E. EDWIN, J. BUNYAN and J. GREEN.
- Saliva secretion and its relation to feeding in cattle. 3. By C. B. BAILEY.
- Analytical differences between muscles of cattle. By R. A. Lawrie.

## nutrition abstracts and reviews

This journal is produced by the Commonwealth Bureau of Animal Nutrition. The Bureau is part of the Commonwealth Agricultural Bureaux organisation financed by Commonwealth governments and the journal is issued under the direction of the Commonwealth Agricultural Bureaux Council, the Medical Research Council and the Reid Library of the Rowett Research Institute. In its four quarterly parts there are informative abstracts on all aspects of nutrition both animal and human and each part contains a critical review article on some special aspect of the subject.

The next volume is Volume 32 for which the subscription rate is 200s.

*Full information is available from:*

**The Secretary,  
"Nutrition Abstracts and Reviews,"  
Rowett Research Institute,  
Bucksburn, Aberdeen, Scotland**

# BRITISH POULTRY SCIENCE

SPONSORED BY THE POULTRY EDUCATION ASSOCIATION

*Contents of Volume 2, No. 1 (April 1961)*

- TYLER, C. Shell strength: its measurement and its relationship to other factors.
- PROUDFOOT, F. G. and GOWE, R. S. Studies on the design of comparative poultry tests. II. Effect of rearing and housing methods on performance of different strains of Leghorns.
- ROBERTSON, I. S. Studies of chick embryo orientation using X-rays. I. A preliminary investigation of presumed normal embryos.
- ROBERTSON, I. S. Studies of chick embryo orientation using X-rays. II. Mal-positioned embryos and their subsequent hatchability.
- MORRIS, T. R. and FOX, S. Increasing versus constant daylength for laying pullets.

This journal is published twice a year in April and October. The annual subscription is 30s. (U.S.A. and Canada \$5.00), single parts 17s. 6d. (U.S.A. and Canada \$2.75). Orders and subscriptions may be sent to any bookseller or direct to:

## INDIAN JOURNAL OF VETERINARY SCIENCE AND ANIMAL HUSBANDRY

*Indian Journal of Veterinary Science and Animal Husbandry*, a quarterly journal, was established about thirty years ago. It is the leading Indian veterinary journal and includes results of original research on diseases, breeding, nutrition and husbandry of farm animals; and reference to almost all important work in veterinary science.

*Single copy*  
3s. 9d.

*Annual subscription*  
15s.

## INDIAN JOURNAL OF AGRICULTURAL AND VETERINARY EDUCATION

A half-yearly periodical published with a view to promoting agricultural and veterinary education in the country. Scientific papers and instructive articles on different aspects of agricultural and veterinary education presented in this journal are of great practical use to educationists, research scholars, students etc. Contributors to this journal are renowned specialists from India and abroad.

*Single copy*  
3s. 9d.

*Annual Subscription*  
7s. 6d.
