

Now there's a surgical scrub that's effective. But not irritating.

Huntington offers you an effective alternative to irritating surgical scrubs. OR/Scrub® with Triclosan. The only Triclosan scrub available.

OR/Scrub with Triclosan is a broad spectrum antimicrobial. And it's proven effective against a wide range of both Gram-negative and Gram-positive organisms. Even inside surgical gloves. When used routinely, OR/Scrub provides a prolonged resistance to harmful bacteria.

OR/Scrub doesn't irritate your hands because of our non-sensitizing formulation. A combination of three soothing oils and hydrolized lanolin leaves your hands soft, smooth and irritation free. Scrub after scrub after scrub.

Use a surgical scrub that's tough on bacteria not on your hands. Specify OR/Scrub. For technical information and test results, contact your Huntington representative or call Robert Vogel collect at 219/356-8100.

**EXCLUSIVE
BREAKTHROUGH
IN DISINFECTION**
Effectiveness Test Kit
for CIDEX FORMULA 7
Solution now available.
Reorder #2828.

NO COMPARISON

Reorder #2750

When it comes to disinfection, CIDEX FORMULA 7* Long-Life Activated Dialdehyde Solution stands on a proud record of scientific acclaim. And stands out for its unequalled combination of efficacy and safety.

No one else can claim as much: proven and unsurpassed efficacy;¹ non-corrosive alkaline base;²

economical 28-day uselife; surfactants for complete wetting and thorough rinsing; fresh mint scent; clear green color for easy location of submerged instruments.

1. Disinfects completely in 10 minutes, and sterilization can be achieved in 10 hours at room temperature. It is not possible to test effect on human hepatitis virus through currently available methods.

2. When used as directed.
