International Protection of Human Rights

Edited by **Dinah Shelton**, George Washington University Law School

The contributions selected for inclusion in *American Classics in International Law: International Protection of Human Rights*, edited by Dinah Shelton, reveals themes, approaches, and analyses that have advanced human rights in ways that reflect specificities of US culture, politics and legal education. The selections also reflect a pragmatic approach, seeing human rights as needing protection in the national interest because failure to ensure them would threaten peace and US security. This volume invokes themes such as the interaction of humanitarian and selfinterested motives for advancing specific human rights or human rights in general, the intertwining of academic and popular writings, and examines legal advocacy and practice and the interdisciplinary focus of US scholarship.

The International Legal Status and Protection of Environmentally-Displaced Persons: A European Perspective

Dr Hélène Ragheboom, Government of Luxembourg - Ministry for Foreign Affairs (Luxembourg, LU).

Hélène Ragheboom addresses the topical issue of displacement caused by environmental factors and analyses in particular whether affected persons, who are unable or unwilling to return to their country of origin due to the severe degradation of their living environment, could or, in the negative, should receive some form of international protection within the European Union. The author provides a detailed analysis of relevant instruments of refugee law and international human rights law, and explores possible future approaches to addressing the phenomenon of environmental displacement, ranging from constructive interpretations of existing norms to the allegedly preferable creation of a multidisciplinary *sui generis* framework.

Leaving the EU - Why, How and When?

Kenneth A. Armstrong
University of Cambridge

Paperback: 978-1-108-40127-2: \$22.99

The result of the UK referendum in June 2016 on membership of the European Union had immediate repercussions across the UK, the EU and internationally. As the dust begins to settle, attention is now naturally drawn to understanding why this momentous decision came about and how and when the UK will leave the EU. What are the options for the new legal settlements between the UK and the EU? What will happen to our current political landscape within the UK in the time up to and including its exit from the EU? What about legal and political life after Brexit? Within a series of short essays, *Brexit Time* explores and contextualises each stage of Brexit in turn: pre-referendum; the result; the process of withdrawal; rethinking EU relations; and post-Brexit. During a time of intense speculation and commentary, this book offers an indispensable guide to the key issues surrounding a historic event and its uncertain aftermath.

- The publication date of June 2017 is timed to co-incide with the first anniversary of the 2016 UK Referendum which is the starting point of the book, with its end point as the triggering of Article 50 by the UK in 2017
- Written by an acknowledged expert on European law

ASIL Studies in International Legal Theory

The purpose of the ASIL Studies in International Legal Theory is to clarify and improve the theoretical foundations of international law. Too often the progressive development and implementation of international law has foundered on confusion about first principles. This series raises the level of public and scholarly discussion about the structure and purposes of the world legal order and how best to achieve global justice through law. This series grows out of the International Legal Theory project of the American Society of International Law. The ASIL Studies in International Legal Theory deepen this conversation by publishing scholarly monographs and edited volumes of essays considering subjects in international legal theory.

ASIL Insights

ASIL Insights are a wonderful way for me to learn quickly from people who are knowledgeable and authoritative about recent and ongoing developments in international law, particularly in areas that are a little outside my own area of expertise, so they help me stay abreast, and they make me more effective in my teaching.

Allen Weiner
Senior Lecturer at
Stanford University Law School
and Director of Stanford's
Program in International and
Comparative Law

ASIL *Insights*, the "international law behind the headlines," provide brief, balanced accounts of the international law issues raised by newsworthy late-breaking events. They cover the gamut of international legal topics, with past articles covering topics such as the legality of intervention in Syria, the United States' implementation of adverse WTO rulings, and the International Court of Justice's ruling on Antarctic whaling. ASIL *Insights* are distributed to subscribers and posted on the ASIL website approximately two times a month.

To receive ASIL *Insights*, simply create a guest account at asil.org. To view past Insights or propose a new one, visit www.asil.org/Insights.

Shape the Future of International Law

ASIL has allowed me to meet other lawyers with similar interests, but also exposed me to new issues of international law. ASIL offered me a space to share my ideas and build on them...[and] to be an active participant in international law.

Assistant Professor,
University of Richmond
School of Law; formerly of
White & Case LLP
