STEVE WEBER

Cooperation and Discord in U.S.-Soviet Arms Control

Cooperation and Discord in U.S.-Soviet Arms Control

Steve Weber

Extending an empirical approach to game theory Steve Weber argues that although nations employ many different types of arms controls strategies, only strategies based on an ideal type of "enhanced contingent restraint" promoted cooperation in U.S.-Soviet arms control.

"An important theoretical analysis of cooperation between the U.S. and the Soviet Union in the area of arms control . . . An excellent work on a subject that has received very little attention."

—*Choice*

Now in paper: \$16.95 ISBN 0-691-02766-8.

Debt, Development, and Democracy

Modern Political Economy and Latin America, 1965-1985

Jeffry A. Frieden

"In this jewel of a book Frieden systematically compares how and why Latin America's five largest debtors—Argentina, Brazil, Chile, Mexico and Venezuela—differed in their approaches to development policy choices, paths of political development and responses to the debt crisis of the 1980s. . . . Clear and cogent."

—*Foreign Affairs*

NEGOTIATING THE NEW OCEAN REGIME

by *Robert L. Friedheim*

Friedheim analyzes the problems faced by the United Nations Conference on the Law of the Sea (1967–82), the bargaining process pursued by its participants, and the applicability of parliamentary diplomacy to other global problems.

Yearbook of the United Nations

1991

edited by the Dept. of Public Information, United Nations
December 1992 Volume 45 1,152 pages
ISBN 0-7923-1970-2 \$115.00

"...a faithful record of the Organization's efforts to build a better world..." is how former Secretary-General Javier Pérez de Cuéllar describes the **Yearbook of the United Nations** in his introduction.

1991 was a remarkably eventful year for the U.N. as well as international relations in general. Along with covering the many rulings and negotiations related to The Gulf War, the 1991 edition covers globe-encompassing, diverse activities in the areas of disarmament, human rights, the settlement of regional conflicts, protection of the environment, control of drugs and narcotic substance abuse, crime prevention, humanitarian assistance for refugees, disaster relief, and the welfare of women, disabled persons, the young and the aging.

Fully indexed, each volume of the **Yearbook** contains the most current, comprehensive and authoritative references about the work of the U.N., other international organizations and related bodies. The yearbooks are designed not just for use by diplomats, officials and scholars, but also journalists, researchers, teachers and students.

GLOBAL *Environmental* ACCORDS

Original in Paperback

WATER The International Crisis

Robin Clarke

Policymakers and development planners have been curiously struck with "water blindness" in the face of a quadrupling of water uses. Robin Clarke offers the first comprehensive approach to this most valuable and fragile of Earth's life-supporting substances.

"I really know of no other book with a similar content. Clarke does a masterful job in pulling all the pieces together... I could not put it down once I began to read it!" — *Elizabeth Kline, Director, Consortium for Regional Sustainability, Tufts University*

"Coming at a time when there is considerable focus on water scarcity, Clarke's book provides interesting and objective reading for those decision makers who wish to have a broad overview of the subject. Although there are many other publications with similar objectives, this one is perhaps unique in the broadness of its scope." — *Guy Le Moigne, Senior Advisor, Water Resources, The World Bank*

208 pp. \$15.95 paper (March)

INSTITUTIONS FOR THE EARTH Sources of Effective International Environmental Protection

edited by Peter M. Haas, Robert O. Keohane, and Marc A. Levy

Can environmental institutions be effective at bringing about a healthier environment? How? *Institutions for the Earth* takes a close look at the factors influencing organized responses to seven international environmental problems — oil pollution from tankers, acid rain in Europe, stratospheric ozone depletion, pollution of the North Sea and Baltic, mismanagement of fisheries, overpopulation, and misuses of farm chemicals — to determine the roles that environmental institutions have played in attempting to solve them.

Global Environmental Accords series
340 pp. \$16.95 paper (May)

GLOBAL ACCORD

Environmental Challenges and International Responses

edited by Nazli Choucri

Global Accord is the first holistic assault on a complex set of environmental issues. It provides a much-needed analytical framework for examining how individuals, groups, and nations create environmental dislocations, and how nations can work together to solve ecological problems that cross their borders. The fifteen essays cover theoretical and empirical dimensions, actors and processes, law and economics, and international institutions and systems.

WORLD POLITICS

A Quarterly Journal of International Relations
Henry S. Bienen, Editor

Since 1948, **World Politics** has offered analytical and theoretical articles, research notes, and review articles in international relations, comparative politics, political theory, foreign policy, and modernization, as well as in history, geography, economics, military affairs, and sociology.

Under the editorial sponsorship of the Center of International Studies at Princeton University, **World Politics** publishes original papers on the frontiers of research and scholarship. Current articles include "Political Dynamics of the Post-Communist Transition: A Comparative Perspective," "Explaining the Long-Term Maintenance of a Military Regime: Panama before the U.S. Invasion," and "East Asia's Economic Success: Conflicting Perspectives, Partial Insights, Shaky Evidence."

Published quarterly in October, January, April, and July.

JOURNAL OF DEMOCRACY

Marc F. Plattner and Larry Diamond, Editors

Drawing on the recent profusion of democratic scholarship and activism, the *Journal of Democracy* monitors and analyzes democratic movements and reports on newly established democracies around the world. Leading political analysts and scholars put current events into perspective, examining the social, political, and cultural factors that affect the institutionalization of democracy.

Insightful analyses and front-line reporting make this leading international forum of scholarship a showcase for a variety of competing democratic viewpoints.

Published quarterly in January,
April, July, and October.

“Consistently Important.”

— Henry Kissinger

Bored by airy “reflections” on world events? Tired of reading the same Big Thinkers, year after year? Put off by academes and bureaucratic jargon?

So are we.

That’s why Orbis doesn’t publish musings called “Whither the World?” Nor speculative articles by somebody who used to be somebody.

Orbis publishes articles explaining today’s news — by writers who know what they’re talking about. Articles like:

Planning Europe's Security Future

Gregory F. Treverton / Jeffrey Simon / Howard E. Frost

Tomorrow's Third World Militaries

Amit Gupta

Central Asia's Gathering Storm

Boris Z. Rumer

And as for writing: Frankly, we give our authors a hard time — so that you won't have a hard time understanding them. The result? Illuminating analyses. Lucid arguments. Readable prose. In the end, a world made more intelligible for you.

Orbis
