

THE JOURNAL OF AGRICULTURAL SCIENCE

EDITED BY

G. D. H. BELL, B.SC., PH.D., Plant Breeding Institute, Cambridge

R. E. EVANS, M.SC., PH.D., School of Agriculture, Cambridge

SIR JOHN HAMMOND, C.B.E., M.A., D.SC., F.R.S., School of Agriculture,
Cambridge

SIR BERNARD KEEN, D.SC., F.R.S., 72 Eaton Square, London, S.W.1

SIR E. JOHN RUSSELL, D.SC., F.R.S., Campsfield Wood, Woodstock, Oxon

E. W. RUSSELL, C.M.G., M.A., PH.D., F.INST.P., East African Agriculture and
Forestry Research Organisation, P.O. Box 21, Kikuyu, Kenya

F. YATES, SC.D., F.R.S., Rothamsted Experimental Station, Harpenden

VOLUME LVII 1961

CAMBRIDGE
AT THE UNIVERSITY PRESS
1961

Contents

PART I (AUGUST 1961)

	PAGE
RYLE, MARGARET. Early reproductive failure of ewes in a hot environment. I. Ovulation rate and embryonic mortality. (With Two Text-figures)	1
SLEE, J. and CARTER, H. B. A comparative study of fleece growth in Tasmanian Fine Merino and Wiltshire Horn ewes. (With Four Text-figures)	11
WEINER, GERALD. Population dynamics in fourteen lowland breeds of sheep in Great Britain	21
WIDDOWSON, F. V., PENNY, A. and WILLIAMS, R. J. B. Experiments with nitrogen and potash on barley	29
TODD, J. R. Magnesium in forage plants. II. Magnesium distribution in grasses and clovers. (With One Text-figure)	35
LAMPKIN, G. H., HOWARD, D. A. and BURDIN, M. L. Studies on the production of beef from zebu cattle in East Africa. III. The value of feeding a phosphatic supplement. (With Three Text-figures)	39
ROBERTSON, I. S. The influence of turning on the hatchability of hens' eggs. I. The effect of rate of turning on hatchability. (With Plate I and One Text-figure)	49
ROBERTSON, I. S. The influence of turning on the hatchability of hens' eggs. II. The effect of turning frequency on the pattern of mortality, the incidence of malpositions, malformations and dead embryos with no somatic abnormality. (With Two Text-figures)	57
CHAMBERS, D. T. Grass as a food for the calf. I. The value of cut grass in the diet of the unweaned calf in comparison with hay and concentrates. (With One Text-figure)	71
CHAMBERS, D. T. Grass as a food for the calf. II. The effects of feeding grass or concentrates-with-hay during the pre-weaning period on the intake and utilization of grass during the post-weaning period. (With Two Text-figures)	77
BOLTON, W. The effects of supplemental detergents on the digestibility of poultry diets	83
ALLEN, D. M. and LAMMING, G. E. Some effects of nutrition on the growth and sexual development of ewe lambs. (With Two Text-figures)	87
STORRY, J. E. Studies on calcium and magnesium in the alimentary tract of sheep. I. The distribution of calcium and magnesium in the contents taken from various parts of the alimentary tract. (With Two Text-figures)	97
STORRY, J. E. Studies on calcium and magnesium in the alimentary tract of sheep. II. The effect of reducing the acidity of abomasal digesta <i>in vitro</i> on the distribution of calcium and magnesium. (With Five Text-figures)	103
EVANS, R. E. The protein-saving action of synthetic lysine and methionine	111
CH'ANG, T. S. Reproductive performance of New Zealand Romney sheep grazed on red clover (<i>Trifolium pratense</i>) pastures	123
ROBINSON, T. J. The time of ovulation and efficiency of fertilization following progesterone and pregnant mare serum treatment in the cyclic ewe	129

	PAGE
LINDSAY, D. R. and ROBINSON, T. J. Studies on the efficiency of mating in the sheep. I. The effect of paddock size and number of rams	137
LINDSAY, D. R. and ROBINSON, T. J. Studies on the efficiency of mating in the sheep. II. The effect of freedom of rams, paddock size, and age of ewes	141

PART 2 (OCTOBER 1961)

FREE, J. B. and SPENCER-BOOTH, YVETTE. The effect of feeding sugar syrup to honey-bee colonies	147
FREE, J. B. and SPENCER-BOOTH, YVETTE. Further experiments on the drifting of honey-bees (With Five Text-figures)	153
CHARLES, ALLEN H. Establishment studies. II. The effect of method of establishment on a 1-year ley in the seeding year. (With Two Text-figures)	159
GODFREY, N. W. The functional development of the calf. I. Growth of the stomach of the calf. (With Three Text-figures)	173
GODFREY, N. W. The functional development of the calf. II. Development of rumen function in the calf. (With Five Text-figures)	177
ROBERTSON, I. S. Studies on the effect of humidity on the hatchability of hen's eggs. I. The determination of optimum humidity for incubation. (With One Plate and Three Text-figures)	185
ROBERTSON, I. S. Studies on the effect of humidity on the hatchability of hen's eggs. II. A comparison of hatchability, weight loss and embryonic growth in eggs incubated at 40 and 70% R.H.	195
ZALESKI, A. White clover investigations. I. Effect of seed rates and cutting treatments on flower formation and yield of seed. (With One Plate)	199
EVERITT, G. C. and CARTER, A. H. Growth and muscle development of steers implanted with hexoestrol. (With One Plate and Six Text-figures)	213
REID, D. Factors influencing the role of clover in grass-clover leys fertilized with nitrogen at different rates. III. The effects of the variety of companion grass and of the variety of clover on the botanical composition of the sward. (With Two Text-figures)	231
TEMPLEMAN, W. G. Urea as a fertilizer	237
HOOD, A. E. M. and PROCTOR, JOHN (the late). An intensive cereal-growing experiment. (With Three Text-figures)	241
LOW, A. J. and PIPER, F. J. Urea as a fertilizer. Laboratory and pot-culture studies	249
BRAUDE, R., TOWNSEND, M. JILL, HARRINGTON, G. and ROWELL, J. G. A comparison of wheat and fine wheat offal in the rations of fattening pigs	257
WALKER, D. M. and LEE, BARBARA A. The rumen fermentation of lactose in the adult sheep. (With Three Text-figures)	267
WALKER, D. M. and WALKER, GWEN J. The development of the digestive system of the young animal. V. The development of rumen function in the young lamb. (With Six Text-figures)	271
GRIFFITHS, D. J. The influence of different daylengths on ear emergence and seed setting in oats. (With One Plate and Two Text-figures)	279

PART 3 (NOVEMBER 1961)

	PAGE
SEARLE, S. R. Estimating the heritability of butterfat production	289
ARNOLD, P. W. and CLOSE, B. M. Release of non-exchangeable potassium from some British soils cropped in the glasshouse. (With Six Text-figures)	295
SMITH, C. A. The utilization of <i>Hyparrhenia</i> veld for the nutrition of cattle in the dry season. I. The effects of nitrogen fertilizers and mowing régimes on herbage yields. (With Two Text-figures)	305
SMITH, C. A. The utilization of <i>Hyparrhenia</i> veld for the nutrition of cattle in the dry season. II. Veld hay compared with <i>in situ</i> grazing of the mature forage, and the effects of feeding supplementary nitrogen. (With One Text-figure)	311
STARKE, J. S. and JOUBERT, D. M. A score card for lamb and mutton carcasses. (With One Plate)	319
DESSOUKY, F. I. and RAKHA, A. H. Studies on the gestation period and post-partum heat of Friesian cattle of Egypt.	325
WIDDOWSON, F. V., PENNY, A. and WILLIAMS, R. J. B. Autumn nitrogen for winter wheat.	329
WARDROP, I. D. Some preliminary observations on the histological development of the fore-stomachs of the lamb. I. Histological changes due to age in the period from 46 days of foetal life to 77 days of post-natal life. (With Six Plates)	335
WARDROP, I. D. Some preliminary observations on the histological development of the fore-stomachs of the lamb. II. The effects of diet on the histological development of the fore-stomach of the lamb during post-natal life. (With Three Plates)	343
TAYLER, J. C., RUDMAN, J. E. and KEMP, C. D. Relationships between certain carcass measurements, weights of wholesale joints and sample joint composition of Hereford cross-bred steers. (With One Text-figure)	347
BUCK, S. F. The use of rainfall, temperature, and actual transpiration in some crop-weather investigations. (With Six Text-figures)	355
WORRALL, G. A. Work on improvement of saline-alkali land on the University Farm, Khartoum, 1956-59	367
BLAIR, R. The early weaning of pigs. VII. The effect of level and source of protein in the diet of pigs weaned at 10 lb. live weight on subsequent performance and carcass quality. (With One Plate)	373
ARNOLD, P. W. and CLOSE, B. M. Potassium-releasing power of soils from the Agdell rotation experiment assessed by glasshouse cropping. (With Four Text-figures)	381
DUTTA ROY, D. K. and KORDOFANI, A. Y. Study of long-term rotation effects in the Sudan Gezira. (With One Text-figure)	387
DUCKWORTH, J., BENZIE, D., CRESSWELL, E. and HILL, R. Studies of the skeleton of the sheep. VI. A note on the use of a bone biopsy technique for skeletal studies with sheep	393
BENZIE, D., CRESSWELL, E., DUCKWORTH, J., HILL, R. and BOYNE, A. W. Studies of the skeleton of the sheep. V. Radiographic and chemical investigations of the skeleton of Scottish Blackface ewes and wethers on three hill farms in Scotland. (With One Text-figure)	395
GATHERUM, D. P., HARRINGTON, G. and POMEROY, R. W. Visual judgements of quality in meat. III. Assessments of bacon qualities by naïve and experienced judges using photographic reference standards. (With Two Plates and Four Text-figures)	401
BLAXTER, K. L. and WAINMAN, F. W. The utilization of food by sheep and cattle. (With Four Text-figures)	419

BLAXTER, K. L. and MAINMAN, F. W. The utilization of food by sheep and cattle. (With Four Text-figures)	419

The Journal of Agricultural Science is issued every other month in parts of about 136 pages with plates and figures, three parts constituting a volume. Two volumes yearly.

Quotations for available back volumes and parts may be obtained on application to the Cambridge University Press.

Papers for publication should be typewritten or written in a very legible hand, and may be sent to SIR JOHN HAMMOND, School of Agriculture, Cambridge, or to the associate Editors. Other communications should be addressed to the University Press, Cambridge.

If Plates in excess of one per 24 pages of text or coloured plates are submitted the author may be asked to bear the cost of such Plates.

The lettering on text figures should be clear of the illustration and indicating by blue pencilled lines the desired position.

Bibliography should be given under the heading of 'References' in the following form:

Surname of authors (in alphabetical order), initials, date of publication (in brackets), title of Journal (abbreviated according to the *World List of Scientific Periodicals*), volume and page of reference. In the text a reference should be quoted by the author's name and date (in brackets).

All names of Journals and books are set in italics; they should be indicated on the typescript by underlining.

Contributors will receive twenty-five copies of their papers free.

The subscription price, payable in advance, is 60s. net per volume (post free); single numbers 25s. net. Subscriptions may be sent to any bookseller, or to The Cambridge University Press, Bentley House, 200 Euston Road, London, N.W. 1.

Subscription price in the U.S.A. is \$11.50 per volume; single number \$4.25. Enquiries should be addressed to the Cambridge University Press, American Branch, 32 East 57th Street, New York 22, N.Y.
