## The University of Manitoba

The University of Manitoba invites applications for faculty positions with appointment in its major teaching hospitals and in its proposed professional units in provincial facilities. These appointments offer major clinical and academic opportunities in child, adolescent, adult, geriatric, and consultation-liaison psychiatry. They offer substantial opportunities for academic and professional growth and development.

The department's teaching hospitals are the province's principal referral institutions for psychiatric problems and they offer a comprehensive range of teaching, therapeutic, and research activities.

Applicants must have an interest in contributing to the department with established teaching and research activities. Opportunities are available in a number of clinical and research settings. Salary and rank commensurate with experience and qualifications.

Both men and women are encouraged to apply. In accordance with Canadian Immigration requirements, this advertisement is directed to Canadian citizens and permanent residents.

Enquiries should be directed to Dr. Harry Prosen, Professor and Head, Department of Psychiatry, University of Manitoba, 770 Bannatyne Avenue, Winnipeg, Manitoba, R3E OW3.

UNIVERSITY OF OTAGO  
AND OTAGO HOSPITAL BOARD  
Dunedin, New Zealand

## MEDICAL DIRECTOR OF PSYCHIATRIC SERVICES

Applications are invited from suitably qualified psychiatrists, for the position of Medical Director of Psychiatric Services.

The post is a joint appointment between the University of Otago and the Otago Hospital Board. The successful applicant will have responsibility for the overall medical direction of the psychiatric services for Otago. The successful applicant will also be expected to be involved in the provision and organisation of psychiatric teaching and training at undergraduate and postgraduate levels. It is hoped that the successful applicant will actively engage in the organisation and performance of clinical research in psychiatry.

The appointment will be at the level appropriate to the candidate's experience up to and including full Professor.

<i>Salary:</i> Professor	NZ\$53,951 – \$59,509 per annum
Associate Professor	NZ\$48,288 – \$54,600 per annum
Senior Lecturer	NZ\$35,121 – \$45,213 per annum

Further particulars may be obtained from Professor Paul E. Mullen, Chairman, Department of Psychological Medicine, P.O. Box 10011, Halfway Bush, Dunedin, New Zealand, from the Secretary General, Association of Commonwealth Universities (Appts), 36 Gordon Square, London WC1H 0PF, or from the Registrar of the University.

Applications close on *31 July 1983*.

# Piportil

DEPOT PIPOTHIAZINE PALMITATE

## From May & Baker the company that developed Largactil.

New Piportil depot is a unique phenothiazine derivative from May & Baker, the company that helped to revolutionise the treatment of psychoses with the introduction of Largactil.

Clinical trials show Piportil depot to exert a potent antipsychotic action against a wide range of symptoms<sup>1,4</sup> Piportil depot is a fast acting<sup>5,6</sup> phenothiazine, and causes minimal sedation<sup>6</sup> and depression<sup>3,5</sup>

These benefits, together with its four week duration of action<sup>2,7</sup> facilitate rapid and maintained social integration for your psychotic patients,<sup>3</sup> helping you to solve the psychotic puzzle.

**Piportil**  
DEPOT  
A new way to treat the  
many facets of psychoses.

**Prescribing Information:** Dosage: (Adults) Initially 25mg (0.5ml) by deep intramuscular injection into the gluteal region to assess susceptibility of patient. Dosage should be increased by increments of 25 or 50mg at appropriate intervals until a satisfactory response is obtained. Most patients respond to a dose of 50-100mg (1-2ml) every 4 weeks. Patients should be stabilised under psychiatric supervision. Contraindications: Marked cerebral arteriosclerosis, phaeochromocytoma, renal or liver failure, severe cardiac insufficiency or hypersensitivity to other phenothiazine derivatives. Precautions: A history of convulsion disorders or marked extrapyramidal reactions to oral phenothiazines; in pregnancy and lactation. Side-effects: Reversible extrapyramidal reactions, sleep disturbance, depression, blurred vision, anisocoria, impotence, dry mouth, nausea, amenorrhoea, galactorrhoea, hypotension, hyperhidrosis and weight gain have been observed occasionally. Corneal or lenticular cloudiness, have not been observed with Piportil alone, but in treatment with phenothiazine preparations in high dosage over a long period, there is a risk of such side-effects occurring. Local reactions at site of injection are rare. Presentations: Boxes of 10 x 1ml (50mg) and 10 x 2ml (100mg) ampoules. Product Licence No. (P) 0012, (01) 7. **References:** 1. # SOMETIMES EVEN THE STRONGEST NEED HELP.

## TICEHURST HOUSE HOSPITAL

Ticehurst House Hospital, long established in its peaceful and attractive

country setting, has recently been reorganised to provide a comprehensive and up-to-date range of psychiatric treatment programmes.

Specialised areas in the hospital

include provision for acute psychiatric care, for the treatment of alcohol problems in the Newington Unit and for a new psychogeriatric assessment facility.

Consultant psychiatrists lead professional staff in designing patients individual treatment plans. A wide range of therapeutic and recreational activities are available under the direction of qualified staff.

Subscribers to the main Private Contributory Schemes may claim benefits within the terms of these schemes. Further information is available from: Mrs P. Young, Ticehurst House, Ticehurst, Wadhurst, Sussex. Tel: (0580) 200391.

**THE UNIVERSITY OF BRITISH COLUMBIA  
DIVISION OF CHILD PSYCHIATRY  
DEPARTMENT OF PSYCHIATRY**

## **ASSISTANT PROFESSORSHIP**

The medical school of the University of British Columbia is in the process of expanding its class size, faculty and general facilities. As a consequence the Division of Child Psychiatry has funding for a position for an academic child psychiatrist. The successful applicant would be expected to do a great deal of undergraduate teaching. Applicants would also do postgraduate teaching, clinical supervision in an outpatient or inpatient setting, and some clinical research.

Applicants should have at least two years of training in child and adolescent psychiatry, and appropriate experience in the teaching and practice of clinical child psychiatry and in research. They should be eligible for medical licensure as a specialist psychiatrist in British Columbia. Salary will be according to experience and credentials.

Applications (with curriculum vitae) and enquiries should be directed to:

**Wm. T. Brown, M.D., Ph.D.  
Chairman, Administrative Committee  
Department of Psychiatry  
The University of British Columbia  
2255 Wesbrook Mall  
Vancouver, B.C., V6T 2A1  
Telephone: (604) 228-7310**

**UBC is an equal opportunity employer.**

## **PSYCHIATRISTS, CONSIDER A FUTURE IN ONTARIO, CANADA.**

There are challenging and exciting opportunities for experienced psychiatrists in Ontario, Canada. The Ontario Government, dedicated to providing its 8.5-million people with the best Mental Health System in the world, is presently developing a team to achieve this end.

In addition to attractive salary and fringe benefits, large tax-free incentives and university appointments are available to the psychiatrists who qualify.

Add to these considerations the wonderfully varied climate, the cultural and recreational facilities and the friendliness of Canadians to professionals from other lands, and Ontario makes a great deal of sense.

# Wiley

AN EAGERLY AWAITED SOURCE OF INFORMATION FOR ALL THOSE INVOLVED OR INTERESTED IN THE LEAD DEBATE.

# LEAD VERSUS HEALTH

## Sources and Effects of Low Level Lead Exposure

edited by **M. Rutter**, *Professor of Child Psychiatry, Institute of Psychiatry, London*, and **R. Russell Jones**, *Deputy Chairman, CLEAR, London*

The effect on health of low level exposure to lead continues to attract widespread attention.

This book represents the most comprehensive and up to date work on the subject by a group of international authorities. The association between blood lead concentration and lead levels in petrol is critically re-examined in the light of new research findings in the UK, USA and Europe. There is discussion of methodology used for measuring lead in the environment, of legislation and control on an international basis, and of the specific disease syndromes, both physical and psychological, associated with lead exposure in adults and children.

This book will be an eagerly awaited source of information for all those involved or interested in the lead debate. It will be essential reading for paediatricians, neurologists, psychiatrists, psychologists, environmental toxicologists and public health authorities, and will be of interest to everyone concerned with the wider implications of environmental and ecological protection.

THE INSTITUTE OF THE LONDON CENTRE FOR PSYCHOTHERAPY IS INVITING APPLICATIONS FOR THE FOLLOWING COURSE:

## **ONE-YEAR PSYCHOTHERAPY COURSE (STARTING APRIL 1984)**

This is an introductory course in psychotherapy. Its purpose is to provide students with a comprehensive view of analytical psychotherapy, its theory and practice, and the study of human development based on different theoretical models.

While this Course is complete in itself, at the same time it is designed to serve as a preparation for the Three-Year Professional Course starting in 1985/6.

It is anticipated that applicants will be graduates or professionals in health, education or social services; applicants from other professions will be considered. Those intending to apply for the subsequent Three-Year Professional Course are required to enter a minimum of twice-weekly therapy.

The Course will be held on 2 evenings per week. Fee: £400.

Candidates are accepted on the basis of personal interviews.

Closing date for applications: 31st August 1983.

Registration Fee: £10.

Further details and application forms can be obtained from The London Centre for Psychotherapy, 19 Fitzjohn's Avenue, London, NW3 5JY

# Handbook of Psychiatry

General Editor: **M.SHEPHERD**

The *Handbook of Psychiatry* is a major, comprehensive, multi-authored account of modern clinical psychiatry and its scientific foundations in five volumes. Many of the authors represent the so-called 'Maudsley' tradition, but the book is international in its psychobiological approach to the theory and practice of medicine. It will be important reading for all practising psychiatrists, for graduate students of psychiatry and medicine and for those specialising in neurology and psychology.

## Volume 1: General Psychopathology

Edited by **M.SHEPHERD** and **O.L.ZANGWILL**

This volume begins with a section about the historical background and the evolution of some basic concepts and then describes and discusses clinical phenomena. In a final section mental disorders are classified and their assessment, diagnosis and treatment are detailed.

**Contributors:** W.F.Bynum, R.H.Cawley, J.E.Cooper, E.Fischer-Homburger, T.C.N.Gibbens, J.Hoenig, R.E.Kendell, F.Kraupl-Taylor, E.Miller, H.B.M.Murphy, F.Post, W.Robbins, C.Scharfetter, M.Shepherd, J.Starobinski, O.Temkin, M.A.Wyke, O.L.Zangwill.

**Hard covers £27.50 net**  
**Paperback £9.95 net**

## Volume 3: Psychoses of Uncertain Aetiology

Edited by **J.K.WING** and **LORNA WING**

Volume 3 gives an up-to-date and comprehensive account of the pathology, biochemistry, aetiology, diagnoses, epidemiology, treatment and prognosis of schizophrenic, paranoid, manic, depressive and autistic illnesses.

**Contributors:** G.Ashcroft, P.Bebbington, D.H.Bennett, A.Clare, C.R.Cloninger, D.J.Cohen, J.Corbett, U.Frith, J.L.Gibbons, I.I.Gottesman, J.Gould, P.Graham, D.R.Hanson, E.H.Hare, S.R.Hirsch, P.Howlin, I.Kolvin, J.Leff, J.M.Neale, T.F.Oltmanns, E.S.Paykel, F.Post, J.D.Rainer, K.Rawnsley, Th.Reich, J.Rice, D.M.Ricks, R.Rodnight, P.Sainsbury, B.A.Shaywitz, E.Stromgren, B.Suarez, J.K.Wing, L.Wing, J.G.Young.
