THE HAMLYN LECTURES

Thirteenth Series

BRITISH JUSTICE

The Scottish Contribution

T. B. SMITH

Q.C., D.C.L., LL.D., F.B.A.

Professor of Civil Law in the University of Edinburgh

At a time when Britain seeks entry to the European Economic Community, Scots Law, which is the law of a country which came out of Europe to go into Britain, could play a vital role as mediator and interpreter between the Civilian heritage of Continental Law and the Anglo-American legal tradition.

The Union of 1707 did not create British Law, except at the centre of the Constitution. Scots Law (largely based on the Civil Law) and English Law continued as two separate systems; but for over 200 years—during which time the British peoples took law to all corners of the earth—the two systems have influenced each other. Scots Law was and still is the paradise of the comparative lawyer and when proper comparative methods were used the results promoted British Justice.

3-4 PETTY CURY, CAMBRIDGE

THIRTEENTH EDITION

SALMOND
on the
LAW OF TORTS

Salmond on Torts is one of the great law books of all time. There are over 120 sentences or paragraphs in the text which have been cited with express judicial approval, as distinct from being merely cited in argument or for purposes of reference, and these have been retained unaltered. There are nevertheless changes, sometimes very substantial, to be found on nearly every page of this new edition.

The chapter on dangerous premises has had to be almost entirely rewritten in the light of the Occupiers' Liability Act, 1957, which very much simplified an extremely complex subject.

A full and fair comment on the now notorious *Wagon Mound* case has been included in the chapter on remoteness of damages, together with references in the appropriate places to the very wide dicta which the judgment contains about the tort of negligence itself. The old cases on remoteness have not yet been discarded, as it was felt desirable to retain them until the House of Lords has spoken clearly on the matter.

For the rest, although brought completely up to date, *Salmond* appears in the arrangement remembered by the many thousands in all parts of the world, who have been brought up on it. Many more, coming to the subject for the first time, will be grateful for the sheer readability of the book.

Thirteenth edition by **R. F. V. Heuston, M.A.**,
of *Gray's Inn and King's Inns, Dublin, Barrister-at-Law*,
Fellow of *Pembroke College, Oxford*

Parliaments and Great Councils in Medieval England

H. G. RICHARDSON
and G. O. SAYLES

From their first appearance the authors' views, which challenged accepted teaching, have been the subject of controversy. The time has now come, in their opinion, to reply to criticisms which, if passed over in silence, may by dint of repetition gain acceptance. This booklet re-states the authors' position and refutes their critics. It shows that the history of Parliament can be written with precision from 1258 onwards, that the teaching of Stubbs and his followers is contradicted by the evidence, and that confusions which are supposed to have existed in the minds of contemporaries are in the minds of those who have not consulted the available documents. These pages are essential reading for all those who desire to understand the early history of Parliament and to appreciate the points of the controversy in which it has become involved.

THE COMMON LAW LIBRARY VOLUMES 1 & 2

Twenty-Second Edition

**Chitty on
CONTRACTS**

Vol. 1: General Principles Vol. 2: Specific Contracts

The Editor and his team of Oxford lawyers have undertaken the major task of re-arranging Volume 1 (General Principles) in accordance with modern ideas of how the subject should be treated to be of the greatest value to the practitioner. This has meant a considerable amount of re-writing, and has resulted in a much more rational and intelligent arrangement. There are now thirty chapters instead of sixteen, thus enabling the Editors to give greater prominence to modern topics and problems. It is now virtually a new book on the general principles of the law of contracts.

As before Volume 2 (Specific Contracts) is arranged in alphabetical order of subject-matter. The chapters on Agency, Hire-Purchase, Matrimonial Contracts and Sale of Goods have been almost completely rewritten, and the chapter on Restrictive Trade Agreements is entirely new.

A large number of references to articles and case notes in periodical literature have been included, and in certain topics where English authority is scanty or uncertain the Editors have drawn attention to leading cases from other jurisdictions.

General Editor: John Morris, D.C.L.

of Gray's Inn, Barrister-at-Law; Fellow of Magdalen College, Oxford

THE COMMON LAW LIBRARY VOLUME 3

Twelfth Edition

Clerk & Lindsell on TORTS

In this edition there has been a thorough revision of the text, and the opportunity has been taken for a re-arrangement of the chapters so as to present the law in a more logical and convenient way.

Many major alterations have been made. Vicarious Liability has been given a separate chapter, as has also the law concerning the effect of death on Tortious Liability. The treatment of Dangerous Property, Premises and Things has been re-arranged, and there is a new chapter entitled Breach of Statutory Duty.

The Occupiers' Liability Act, 1957, has meant that the chapter on that subject has had to be almost completely rewritten. There has also been very extensive rewriting in the chapters dealing with Vicarious Liability, Damage, Inducing Breach of Contract—Intimidation—Conspiracy—Trade Disputes, Negligence and Breach of Statutory Duty.

General Editor: A. L. Armitage, M.A., LL.B.

Fifth Edition

MacGillivray
on
INSURANCE
LAW

MacGillivray is the leading work on the law of insurance and in 1958 the Insurance Companies Act was passed.

These two facts together explain why a new edition appears now, and why it will be so enthusiastically welcomed by all concerned with Insurance Law.

The 1958 Act was a major work of consolidation, and other important consolidations since the last edition are the Births and Deaths Registration Act, 1953, and the Road Traffic Act, 1960. The Acts and all the other relevant legislation are comprehensively dealt with in this new edition.

In addition to covering all the English cases, the Editor has now considerably increased the value of the work by including modern American authority to the extent of some 200 decisions.

To make things easier for the reader the book now appears for the first time in two volumes. Generally speaking the first volume deals with insurance companies and general principles applicable to all contracts of insurance; the second volume with the particular types of insurance, plus chapters on insurance against third party risks, claims for premiums and stamp duty.

There is an index to the whole work included in each volume.

Fifth edition by **DENIS BROWNE, M.A.**
of Lincoln's Inn, Barrister-at-Law

CLARENDON LAW SERIES

The Concept of Law

H. L. A. HART

'He claims for his idea of law as a union of primary and secondary rules what Austin wrongly claimed to have found in the notion of coercive orders, "the key to the science of jurisprudence." It is a bold claim, but not unjustified. . . . Just how much farther this idea will take us in solving problems in jurisprudence it would be rash to say; but there is no doubt that this central idea, presented with characteristic fairness and lucidity will be much discussed, not only by jurists but by everyone interested in social philosophy in the widest sense. It may even prove to be that often-heralded but rare event, a turning-point.' THE TIMES LITERARY SUPPLEMENT 21s net

Administrative Law

H. W. R. WADE

The problems of power, as applied by the State to the citizen, are the theme of this book, which deals, *inter alia*, with the principles of judicial control, natural justice, tribunals and inquiries, remedies against the Crown, and delegated legislation. 21s net

OXFORD UNIVERSITY PRESS

'LAW IN AFRICA SERIES' No. 1

The Constitution and Government of GHANA

There is a dearth of legal works on Ghana at the present time, and this is believed to be not only the first textbook on the constitution and government of the country, but also the first book devoted to any particular branch of the law in Ghana. As such it will be of great interest and value to teachers, students, government officials and interested laymen.

The authors discuss the provisions of the Constitution itself (of which the full text is given in an Appendix) and then consider in detail various particular aspects of it and of the machinery of government.

PITMAN BOOKS

AN INTRODUCTION TO EQUITY

By G. W. KEETON, M.A., LL.D.

Fifth Edition

The text in this latest edition has been heavily revised to cover new developments and to integrate recent cases. Now completely up to date, this is an excellent guide for those who are beginning to study equity. "The task of the student about to study equity will be considerably lightened if he first reads this Introduction to Equity. The book is most readable, and the frequent quotations from the judgments of decided cases are an excellent feature."—*Law Notes* 50s. net

LAW OF AGENCY

By RAPHAEL POWELL, D.C.L.

Second Edition

For this second edition the book has been heavily revised, and extended in length by one-third. Some 1,500 cases are now cited, and there is considerably more reference to the current literature of the subject. A table of citations of Restatement, Second Agency, has been added, and the length of the index has been almost trebled. 60s. net

SLATER'S MERCANTILE LAW

By LORD CHORLEY, M.A., and O. C. GILES, LL.M.

Fourteenth Edition

This standard work has been considerably revised for the new edition to take account of the many legislative changes of the past five years. The section on copyright has been rewritten and the chapter on insurance has been recast. Minor changes have been made throughout the book where necessary in view of new case law. Recommended by the Institute of Bankers (London). 30s. net

THE LAW OF TRUSTS

A Statement of the Rules of Law and Equity Applicable to Trusts of Real and Personal Property

By G. W. KEETON, M.A., LL.D.

Seventh Edition

A well-established textbook and reference work.

50s. net

CASES ON EQUITY AND TRUSTS

By G. W. KEETON, M.A., LL.D.

The primary purpose of this book is to act as a companion volume to the author's *Introduction to Equity* and to *Law of Trusts*, but it will also be of value to those students who use some other textbook. For students reading Law at the Universities or preparing for Bar or Law Society Examinations. 50s. net

SOME PILLARS OF ENGLISH LAW

By JEAN DUHAMEL and J. DILL SMITH

Translated from the French and revised by R. A. HALL

Regarded in French legal circles as a classic, this work has for long been renowned as the best introduction for Continental lawyers, to the basic tenets of English Law. It is written from the practitioner's viewpoint and will be of wide interest to lawyers and students in this country. 20s. net
