

INDEX OF AUTHORS

- ARMITAGE, P., *see* MCCARTHY, K.
 AUSTIN, F. J., *see* MILES, J. A. R.
- BALE, W. R., *see* DARLOW, H. M.
 BANIĆ, S. The mechanism of the 'Welsch Phenomenon', 37
 BATHARD, A. H., *see* BENTLEY, E. W.
 BEATTIE, C. P., *see* LAWY, H. S.
 BENSTED, H. J., *see* LAWY, H. S.
 BENTLEY, E. W., BATHARD, A. H. and RILEY, J. D. The control of rats living between access points in sewers, 19
 BRADLEY, W. H., *see* MCCARTHY, K.
 BROOM, J. C. Leptospiiral infection rates of wild rats in Britain, 371
 BROWN, R. D. Rinderpest immunity in calves
 I. The acquisition and persistence of maternally-derived antibody, 427
 II. Active immunization, 435
 BROWN, W. F., *see* FERRY, R. M.
- CATANZARO, F. J., *see* RAMMELKAMP, C. H.
 CAUGHEY, J. E., *see* MILES, J. A. R.
 CHAMOVITZ, R., *see* RAMMELKAMP, C. H.
 CVJETANOVIĆ, B. Determination of bacterial air pollution in various premises, 163
- DAMON, E. B., *see* FERRY, R. M.
 DARLOW, H. M., POWELL, E. O., BALE, W. R. and MORRIS, E. J. Observations on the bactericidal action of hexyl resorcinol aerosols, 108
 DOWNIE, A. W. and MCCARTHY, K. The antibody response in man following infection with viruses of the pox group. III. Antibody response in small pox, 479
 DOWNIE, A. W., *see* MCCARTHY, K.
 DUGUID, J. P., *see* GILLIES, R. R.
- EPSTEIN, S. S. An intra-oral inoculation technique for the production of experimental pneumonia in mice, 73
 EPSTEIN, S. S. and STRATTON, K. Further studies in the mouse intra-oral inoculation technique, 80
- FAZEKAS DE ST GROTH, S. and WHITE, D. O. An improved assay for the infectivity of influenza viruses, 151
 FAZEKAS DE ST GROTH, S. and WHITE, D. O. The dose-response relationship between influenza viruses and the surviving allantois, 523
 FAZEKAS DE ST GROTH, S. and WHITE, D. O. Comparison of the infectivity of influenza viruses in two host systems: the allantois of intact eggs and surviving allantois-on-shell, 535
 FAZEKAS DE ST GROTH, S., WITHELL, J. and LAFFERTY, K. J. An improved assay method for neutralizing antibodies against influenza virus, 415
 FENNER, FRANK, *see* MARSHALL, I. D.
 FERRY, R. M., BROWN, W. F. and DAMON, E. B. Studies of the loss of viability of stored bacterial aerosols
 II. Death rates of several non-pathogenic organisms in relation to biological and structural characteristics, 125
 III. Factors affecting death rates of certain non-pathogens, 404
 FULTHORPE, A. J. Tetanus antitoxin titration by haemagglutination at a low level of test, 183
- GILLIES, R. R. and DUGUID, J. P. The fimbrial antigens of *Shigella flexneri*, 303

- HAMPTON, J. W. F. and POLSON, A. Studies on poliomyelitis virus. III. The use of ultra-violet light as an additional means of inactivation of formalinized vaccine, 266
- HAMPTON, J. W. F., POLSON, A. and SELZER, GOLDA. Studies on poliomyelitis virus. II. The immunogenic potency of live and inactivated virus in guinea-pigs, 260
- HARPER, G. J., HOOD, A. M. and MORTON, J. D. Air borne micro-organisms: a technique for studying their survival, 364
- HOLMES, MARGARET C. and WILLIAMS, R. E. O. Streptococcal infections among children in a residential home
 I. Introduction and definitions: the incidence of infection, 43
 II. Potential sources of infection for individuals, 62
 III. Some factors influencing susceptibility to infection, 197
 IV. Outbreaks of infection, 211.
- HOOD, A. M., *see* HARPER, G. J.
- KARTMAN, LEO. An insecticide-bait-box method for the control of sylvatic plague vectors, 455
- LAFFERTY, K. J., *see* FAZEKAS DE ST GROTH, S.
- LAWY, H. S., BEATTIE, C. P. and BENSTED, H. J. Brill-Zinsser disease: the possibility of its occurrence in Britain, 355
- LEECH, F. B., *see* PATERSON, A. B.
- LESSLIE, I. W., *see* PATERSON, A. B.
- LILLY, H. A., *see* LOWBURY, E. J. L.
- LIPTON, S., *see* SPICER, C. C.
- LOWBURY, E. J. L. and LILLY, H. A. The sources of hospital infection of wounds with *Clostridium welchii*, 169
- MCCARTNEY, K., DOWNIE, A. W. and ARMITAGE, P. The antibody response in man following infection with viruses of the pox group. I. An evaluation of the poek counting method for measuring neutralizing antibody, 84
- MCCARTNEY, K., DOWNIE, A. W. and BRADLEY, W. H. The antibody response in man following infection with viruses of the pox group. II. Antibody response following vaccination, 466
- MCCARTNEY, K., *see* DOWNIE, A. W.
- MCDONAGH, V. P. and SMITH, H. G. The significance of the abattoir in salmonella infection in Bradford, 271
- MACPHERSON, I. A. The liberation of cell-bound vaccinia virus by ultrasonic vibration, 29
- MARPLE, E. C., *see* RAMMELKAMP, C. H.
- MARSHALL, I. D. and FENNER, FRANK. Studies in the epidemiology of infectious myxomatosis of rabbits. V. Changes in the innate resistance of Australian wild rabbits exposed to myxomatosis, 288
- MEYNELL, ELINOR W., *see* MEYNELL, G. G.
- MEYNELL, G. G. & MEYNELL, ELINOR W. The growth of micro-organisms *in vivo* with particular reference to the relation between dose and latent period, 323
- MILES, J. A. R., AUSTIN, F. J. and CAUGHEY, J. E. The development of homologous neutralizing antibody during a Type I poliomyelitis epidemic, 347
- MORAN, P. A. P. Another test for heterogeneity of host resistance in dilution assays, 319
- MORRIS, A. J., *see* RAMMELKAMP, C. H.
- MORRIS, E. J., *see* DARLOW, H. M.
- MORTON, J. D., *see* HARPER, G. J.
- OEDING, P. and WILLIAMS, R. E. O. The type classification of *Staphylococcus aureus*: a comparison of phage-typing with serological typing, 445
- PARKER, M. T. Some cultural characteristics of *Staphylococcus aureus* strains from superficial skin infections, 238

- PATERSON, A. B., STUART, P., LESSLIE, I. W. and LEECH, F. B. The use of tests on slaughter-house cattle for estimating relative potencies of tuberculins and for the calculation of discrimination tests, 1
- POLSON, A., *see* HAMPTON, J. W. F.
- POWELL, E. O., *see* DARLOW, H. M.
- PUBLIC HEALTH LABORATORY SERVICE WATER SUB-COMMITTEE. A comparison between MacConkey broth and glutamic acid media for the detection of coliform organisms in water, 377
- RAMMELKAMP, C. H., MORRIS, A. J., CATANZARO, F. J., WANNAMAKER, L. W., CHAMOVITZ, R. and MARPLE, E. C. Transmission of group A streptococci. III. The effect of drying on the infectivity of the organism for man, 280
- RILEY, J. D., *see* BENTLEY, E. W.
- SELZER, GOLDA. A comparison of complement-fixation titres in poliomyelitis-infected tissue-culture fluids and mouse brains, 254
- SELZER, GOLDA, *see* HAMPTON, J. W. F.
