

A STABLE SOLUTION OF THESE THREE COMPONENTS HAS BEEN ACHIEVED IN ARGOTONE

**An effective treatment for
 COLDS • ACUTE OR CHRONIC RHINITIS
 CATARRH • SINUSITIS • ASTHMA • HAY FEVER**

The therapeutic properties of Argyrol (Barnes) have been well known for the past twenty years. The combination **into a stable solution** of Argyrol and natural laevorotatory Ephedrine—a powerful and lasting congestion-relieving agent—in normal saline, gave Argotone immediate acceptance as the ideal treatment for nasal affections and their complications.

ARGOTONE, an ethical preparation **not advertised to the Public**, can be prescribed with every confidence. Immediate de-congestion and rapid disinfection are obtained without possibility of harm to the delicate mucous membranes.

AN EMERGENCY BRONCHOSCOPE

Designed by
JOHN F. G. MCGIBBON,
M.B. (Lond.), D.L.O.
Squadron-Leader, A.A.F.

Vide Lancet July 26, 1941

A Bronchoscope self contained with battery in handle, dispensing with entangling cables.

The Bronchoscope was designed for Bronchial aspiration and insufflation of oxygen in cases of emergency.

The handle is provided with a finger rest to facilitate introduction, and is detachable for sterilization.

(Esophagoscopes and Bronchoscopes can be made of various lengths and calibres as desired (*see page 73, Catalogue of Laryngology*). That illustrated above is 40 cm. \times 10 mm.
