

# NOTICE

The 5th World Congress on Genetics Applied to Livestock Production will be held from 7 to 12 August 1994 at the University of Guelph, Guelph, Ontario, Canada.

It will provide a forum for presentation and discussion of research and developments in conventional animal breeding, and will seek to integrate biotechnologies and molecular genetics in livestock production.

The Congress registration brochure will be sent out in October 1993. For further information contact:

**Dr E. Burnside,  
Department of Animal and Poultry Science,  
University of Guelph,  
Guelph,  
Ontario N1G 2W1  
Canada.  
Tel. 519/824-4120 Ext. 3643.**

*Illustrations.* The same material should not normally be presented in tables and figures. Legends should be typed on a separate sheet.

a) Diagrams should be drawn in black ink, about twice the size of the finished block, on white paper or card, stout tracing paper or plastic film. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be avoided as far as possible but if unavoidable it should be included on a fly-leaf.

b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the editors.

c) Colour plates are unlikely to be accepted unless the authors bear the cost.

*Tables* should be as simple and as few as possible. Each table should be typed on a separate sheet.

*Abstract.* Every paper should have a short abstract (not more than 250 words for a paper and 120 words for a note) complete in itself and understandable without reference to the paper. The abstract will be printed at the beginning of the paper and preferably should be in the format of unnumbered short paragraphs.

*Keywords.* Up to a maximum of five keywords selected from the *CAB Thesaurus* (1988) or from an equivalent reference volume should be listed at the end of the Abstract.

*References.* Only papers closely related to the author's work should be referred to; exhaustive lists should be avoided. The arrangement of references should be as in recent papers in *Animal Production*; details are given in the notes for guidance.

*Proofs* are supplied once and must be returned corrected to the editors within 3 days. Only essential corrections should be made.

*Reprints.* Twenty-five reprints of each paper will be supplied free of charge to authors on request. Further copies may be purchased if the order is sent at the proof-stage. Reprints are not supplied for notes.

*Annual subscription* is £120.00 (or \$240.00 in the USA and Canada) and the price for a single part is £20.00 (or \$40.00) net.

*Abstracts of papers presented at British Society of Animal Production winter meeting* are published as a separate section in the June issue of *Animal Production*.

*Correspondence* regarding subscriptions and sales (current and back numbers of the Journal) and any other enquiries, including those concerning copyright, should be addressed to: Durrant Periodicals, Winton Lea, Pencaitland, East Lothian, Scotland EH34 5AY.

*Senior editor*

T. L. J. Lawrence, University of Liverpool

*Editors*

J. A. M. van Arendonk, University of Wageningen

D. G. Chamberlain, Hannah Institute, Ayr

W. Haresign, University of Nottingham

C. L. Johnson, University of Leeds

I. J. Lean, Wye College, University of London

C. A. Morgan, Scottish Agricultural College, Edinburgh

E. Owen, University of Reading

A. J. F. Webster, University of Bristol

J. D. Wood, University of Bristol

J. A. Woolliams, AFRC Institute of Animal Physiology and Genetics Research, Edinburgh

*Technical editors*

Hilary Davies

Marie C. Pitkethly
