

Earth and Environmental Science

Transactions of the Royal Society of Edinburgh

volume 106 part 2 2016
(for 2015)

**Aspects of plant preservation
in the Rhynie cherts,
Aberdeenshire, Scotland**

**Micrometeorite record in
Durness Group limestones,
Isle of Skye**

**How can we know fracking
won't pollute aquifers? An
analogue from Yorkshire, UK**

**Geology reviewed for the
Falkland Islands, South
Atlantic Ocean**

Published by The RSE Scotland Foundation, 22–26 George Street, Edinburgh EH2 2PQ

The Royal Society of Edinburgh is committed to the widespread dissemination of scientific knowledge and has published the *Transactions of the Royal Society of Edinburgh* since 1785, when James Hutton's 'Theory of the Earth' was published in volume 1. The journal evolved to the *Transactions of the Royal Society of Edinburgh: Earth Sciences* in 1980 and is now (as from 2007) the *Earth and Environmental Science Transactions of the Royal Society of Edinburgh*. Through this journal, the Society continues to encourage and support the international Earth and Environmental Science communities by:

- publishing a journal of international standing and authorship;
- publishing substantial papers on all scientific aspects of **the Earth and its surface environments**;
- publishing without page or colour charges;
- reproducing photographs and artwork to the highest standard, where appropriate at a size larger than is customary; and
- aiming to have papers reviewed within three months by at least two referees of international standing; and usually publishing within six months of acceptance.

The Editorial Board welcomes original manuscripts in the Earth and Environmental Sciences. It also welcomes proposals for Special Issues in these areas.

Editorial Board (as at June 2016)

Donald DAVIDSON (<i>Chairman & Editor-in-Chief</i>), University of Stirling <i>Soil science; soil conservation; anthropogenic impacts on soils; soil biodiversity; geoarchaeology</i>	Adrian FINCH (<i>Editor</i>), University of St Andrews <i>Geochemistry; mineralogy; petrology</i>
Mike BENTON (<i>Editor</i>), University of Bristol <i>Vertebrate palaeontology; mass extinctions; palaeobiology; fossil reptiles; Permian; Triassic; macroevolution</i>	John GORDON (<i>Editor</i>), University of St Andrews <i>Geodiversity; geoconservation; Quaternary research</i>
Mike BILLETT (<i>Editor</i>), University of Stirling <i>Soil and surface water biogeochemistry; carbon cycling</i>	Alistair MCGOWAN (<i>Editor</i>), BioGeoD, Edinburgh <i>Palaeobiology; biodiversity; invertebrate palaeontology; the Fossil record</i>
Rob BINGHAM (<i>Editor</i>), University of Edinburgh <i>Subglacial environments; landscape evolution</i>	Andrew ROSS (<i>Editor</i>), National Museums Scotland, Edinburgh <i>Invertebrate palaeontology; palaeobiology; palaeoecology; palaeoenvironment; palaeoclimate</i>
Paul BISHOP (<i>Editor</i>), University of Glasgow <i>Geomorphology; long-term landscape evolution & tectonics; Cenozoic geology</i>	Phil STONE (<i>Editor</i>), British Geological Survey, Edinburgh <i>Scottish and South Atlantic regional geology and tectonics</i>
Kevin EDWARDS (<i>Editor</i>), University of Aberdeen <i>Environmental change in northern Europe & North Atlantic; Palynology; palaeoecology; Quaternary science; environmental archaeology</i>	Alan WERRITTY (<i>Editor</i>), University of Dundee <i>Water resources & climatic change; flood hydrology & geomorphology; river sediments; geomorphic sensitivity; history of geography</i>
Tony FALLICK (<i>Editor</i>), University of Glasgow <i>Isotope biogeosciences; economic geology; dating & geochronology; the Palaeoproterozoic & Neoproterozoic</i>	Paul YOUNGER (<i>Editor</i>), University of Glasgow <i>Engineering, hydrogeology, hydrochemistry, hydrology</i>

Specific permission will not be required for photocopying multiple copies of copyright material, to be used for *bona fide* educational purposes, provided this is done by a member of the staff of the university, school or other comparable institution, for distribution without profit to student members of that institution, and provided the copies are made from the original journal. Requests for the copying or reprinting of any article for any other purpose should be sent to the Journals & Archive Officer at the Royal Society of Edinburgh. (publications@royalsoced.org.uk).

Earth and Environmental Science Transactions of the Royal Society of Edinburgh is published as one volume of four parts per year, usually in a combination of single and double issues.

Volume 106 (2015) will be published in three parts – one double issue and two single issues. [Volume 107 (2016) will be provisionally published in three parts – one double issue and two single issues.]

An annual subscription to *EESTRSE* costs GBP318/ USD601 (Print plus Online); or GBP285/ USD528 (Online only).

Orders should be placed with Cambridge University Press, Journals Fulfilment Department, UPH, Shaftesbury Road, Cambridge CB2 8BS, UK. Telephone: +44 (0)1223 326070; Fax: +44 (0)1223 325150; email: journals@cambridge.org

EESTRSE is indexed/abstracted in the following: Current Contents/Physical, Chemical & Earth Sciences; Biosciences Information Service; Geoabstracts; GEOBASE; Mineralogical Abstracts; Science Citation Index; SciSearch; VINITI (All-Russian Institute of Scientific and Technical Information); *Zoological Record*.
