APSA Study of Congress

Two more studies have been published in the Association's Study of Congress Project. The first is an article by the Director of the Study, Ralph K. Huitt. It is entitled, "White House Channels to the Hill," and appeared in the Proceedings of the Academy of Political Science (Vol. 32, No. 1, 1975). A second publication is by the Associate Director of the Project, Robert L. Peabody. It is a book entitled *Leadership in Congress: Stability, Succession and Change* and is published by Little Brown.

Regional and State Political Science Associations

At the 1975 Annual Meeting of the Association, officers of the state and regional associa-

tions again met. The meeting provided officers an opportunity to discuss mutual concerns in conducting state and regional associations as well as ways in which the organizations can be strengthened.

PS is publishing its annual list of state and regional political science associations including organizations, officers, publications, and meetings in this issue. Further information as well as additions or corrections to the list will be appreciated.

Detailed information on activities and meetings of state and regional associations for the past and forthcoming conference section of *PS* will also be most welcome.
