# The Journal of Laryngology and Otology

(FOUNDED in 1887 by MORELL MAGKENZIE and NORRIS WOLFENDEN)

EDITED BY

G. H. BATEMAN

ASSISTANT EDITOR  
LIONEL TAYLOR

1. Original articles which have not been published elsewhere are invited and should be sent to the Editor. They are considered for publication on the understanding that they are contributed to this *Journal* solely. Reproduction elsewhere, in whole or in part, is not permitted without the previous written consent of the Author and Editor and the customary acknowledgment must be made.

2. Manuscripts should be typewritten, on one side only of the paper, and well spaced. Captions to illustrations should be typed on a separate sheet and sent at the same time as original photographs, etc.

The Harvard system of recording references should be used, e.g. GREEN, C., and BROWN, D. (1951) *J. Laryng.*, 65, 33. Abbreviations of Journals should follow the style recommended in *World Medical Periodicals*, published by World Health Organization, 1952.

It is most important that authors should verify personally the accuracy of every reference before submitting a paper for publication.

3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked, and no extra matter added. Proofs should be returned within 5 days.

4. Illustration blocks will normally be held by the Printers for three years, after which they will be destroyed. Any author is entitled to have these returned to him, but a request for this must be sent within three years of the appearance of the article, to HEADLEY BROTHERS LTD., The Invicta Press, Ashford, Kent. Coloured illustrations will be charged to authors, unless a special grant is authorized by the Editor.

5. Orders for reprints must be sent when returning galley proofs, and for this purpose special forms are supplied.

6. Editorial communications may be addressed to THE EDITOR, *Journal of Laryngology*, c/o HEADLEY BROTHERS LTD., The Invicta Press, Ashford, Kent.

7. The annual subscription is five guineas sterling (U.S.A. \$15) post free, and payable in advance.

8. Single copies will be on sale at 12s. 6d. each; copies of parts up to Vol. LXIII which are available may be purchased at 7s. 6d. each.

9. All subscriptions, advertising and business communications should be sent to the publishers, HEADLEY BROTHERS LTD., The Invicta Press, Ashford, Kent.

## *United States of America*

Orders for this *Journal* may be sent through local booksellers, or to STECHERT-HAFNER, INC., 31-33 East 10th Street, New York, or direct to the publishers, HEADLEY BROTHERS LTD., The Invicta Press, Ashford, Kent, England.

# PETERS AP/5 CLINIC AUDIOMETER

WITH SYNCHRONOUS MASKING

This new clinic audiometer of very advanced design offers:

- A continuous frequency range with continuously variable attenuation accurate and readable to less than 1 db.
- Synchronous masking. A new, accurate and speedier masking technique, which is semi-automatic.
- Narrow band masking for pure-tone measurements and white noise for speech.
- Automatic loudness balance switching.
- The SISI Test, the Rainville B.C. Test, automatic pulsing.
- Full speech facilities.
- Interchangeable slide and plug in sub-chassis.
- Operator checks of output and threshold.

Five additional features are offered by the still more advanced  
**PETERS AP/6 CLINIC AUDIOMETER**

Both audiometers can be used with the "PETERS" automatic

# What clinicians say about ORBENIN

Clinicians have frequently testified to the success of Orbenin in the treatment of Gram-positive infections. World Literature now contains over 400 references to Orbenin.

Pneumonia  Lung Abscess  Tonsillitis  Pharyngitis  Acute bronchitis

Septicaemia

Boils  Carbuncles  Infected dermatoses

Osteomyelitis  Osteitis

Post-operative wound infections  Burns  Skin graft protection

Acute endocarditis

Staphylococcal enterocolitis  Staphylococcal urinary tract infections  
Staphylococcal meningitis

## Dosage

**Adults:** 500mg (2 capsules) four times daily, by mouth. 250mg (1 vial) by intramuscular injection, four times daily.

**Children:** Under 2 years—quarter adult dose. 2-10 years—half adult dose.

In severe infections the dosage may be increased.

## Contra-indications

Orbenin should not be given to patients with a penicillin allergy or administered by subconjunctival injection.

## Side-effects

As with other penicillins.

*Additional information is available on request.*

Orbenin (Regd.) (cloxacillin sodium BP) is a product of British research at **Beecham Research Laboratories** Brentford, England, originators of the new penicillins.

eliminate the cross infection risk

**Opulets**  
sterile, single dose  
eye and ear preparations

To overcome the risk of contamination in eye and ear infections, Opulets have been developed as sterile, single dose eye and ear drop tubes and ointment capsules. Each is packed in a film sachet and sterilized by gamma radiation, ensuring effective sterilization with no loss of activity – the strict criteria of efficacy and safety being met in full.

After each application, these single dose units are discarded, eliminating cross infection risks – each treatment administered by either medical staff or the patient is thus under the most sterile conditions possible in practical medicine.

Opulets provide the lowest unit price available compared with all other preparations of a similar nature. Presentations available at present are:

**Atropine Eye Ointment**

Atropine Sulphate BP 0.5% w/w.

**Chloramphenicol Eye and Ear Drops**

Chloramphenicol BP 0.5% w/v.

**Chloramphenicol Eye and Ear Ointment**

Chloramphenicol BP 1.0% w/w.

**Fluorescein Eye Drops**

Fluorescein Sodium BP 1% w/v

**Hydrocortisone/Neomycin Eye and Ear Ointment**

Hydrocortisone Acetate BP 1.5% w/w

Noemycin BP 0.5% w/w.

**Physostigmine Eye Drops**

Physostigmine (Eserine) Sulphate BPC 0.5% w/v.

**Sulphacetamide Eye Drops**

Sulphacetamide Sodium BP 10% w/v.

**Sulphacetamide Eye Ointment**

Sulphacetamide Sodium BP 6% w/w.
