

Index of Subjects

- Adenovirus type 4; evaluation of results with a live vaccine, 499
- Aerosols; the inactivation of poliovirus in, 557
- African swine fever virus; growth of a virulent strain in domestic pigs, 117
- Agar cylinder method of investigation of hospital floors, 625
- Air-conditioning plants, bacteriological aspects of, 567
- Antarctic community; the epidemiology of respiratory infection in, 427
- Antibiotic resistance of *Shigella sonnei*. I. Transferable antibiotic resistance, 471; II. The acquisition of transferable antibiotic resistance *in vivo*, 479
- Antibodies to *Mycoplasma gallisepticum* in chickens and turkeys; serological tests for the detection of, 249
- Antibody to *Mycoplasma pneumoniae* in normal subjects and in patients with chronic bronchitis, 185
- Aqueous and oil-adjuvant influenza vaccines and iso-immunization to group A substance, 1
- Arizona serotype isolated from a case of gastro-enteritis in Britain, 109
- Bacteria in a hospital nursery, laboratory and clinical studies, 325
- Bacteriological aspects of air-conditioning plants, 567
- Brucella abortus* infection of cows. A whey complement fixation test, 19
- Calves as excretors of *Salmonella typhimurium*, 207
- Carrier rate; estimation of from amoebic surveys, 531
- Cholera; further studies on the development of a live oral vaccine, 307
- Clostridial spores; the inhibitory properties of sodium thioglycollate on their germination, 269
- Clostridium welchii*; outbreaks of food poisoning caused by heat-sensitive strains, 135
- Clotting time of plasma in wild mice; the effect of warfarin on, 159
- Coliform organisms in water; comparison of various media for the enumeration of, 67
- Coliform organisms; confirmatory tests for, 641
- Cowpox and vaccinia viruses; inhibition of growth in RK13 cells, 191
- Cutaneous diphtheria; its role in the acquisition of immunity, 83
- Diphtheria; the role of cutaneous infections in the acquisition of immunity, 83
- Enteric infections in a Bantu township; assessment of meat, offal and other possible sources, 365
- Enzootic pneumonia in pigs; attempts to recover *Mycoplasma suisipneumoniae* from experimental and natural cases, 595
- Evidence for a two-stage model of microbial infection, 273
- Floors of patients' rooms; investigation of with an agar cylinder, 625
- Food poisoning caused by heat-sensitive *Clostridium welchii*, 135
- Foot-and-mouth disease virus isolated from clinically normal herds of cattle in Botswana, 27
- Foot-and-mouth disease virus; its persistence in sheep, 633
- Gastro-enteritis with isolation of an Arizona serotype in Britain, 109
- Genetic marker studies on poliovirus type I strains from the Blackburn poliomyelitis outbreak in 1965, 513
- Glomerulonephritis in Trinidad: serological typing of group A streptococci, 657
- Growth-inhibition test: a modification, and its use for detecting *Mycoplasma mycoides* var. *mycoides*, 319
- Hospital nursery; studies on bacteria in, 325
- Hygiene of slicing machines, carving knives and can-openers, 439
- Immune response to viruses in calves, I. Response to Murray Valley encephalitis virus, 451; II. The response in young calves, 461

- Immunological response in cows to *Mycoplasma bovis*, 585
 Incubation of enrichment media at elevated temperatures for isolation of salmonellas from heavily contaminated materials, 377
 Influenza, aqueous and oil-adjuvant vaccines for, 1
- Langat virus encephalitis in mice. I. The effect of the administration of specific antiserum, 343; II. The effect of irradiation, 355
 Louping ill virus in experimentally infected sheep; methods of measuring the persistence of neutralizing and haemagglutinin-inhibiting antibodies, 217
- Meat, offal and other possible sources of human enteric infections in a Bantu township, 365
 Media for the enumeration of coliform organisms in water, 67
 Microbial infection, evidence for a two-stage model of, 273
Mycoplasma bovis, strain 1836, immunological response to in cows, 585
Mycoplasma gallisepticum, detection of antibodies to in chickens and turkeys, 249
Mycoplasma mycoides var. *mycoides*, detection of by a modified growth-inhibition test, 319
Mycoplasma pneumoniae antibody in normal subjects and in patients with chronic bronchitis, 185
Mycoplasma suis, attempted recovery from experimental and natural cases of enzootic pneumonia in pigs, 595
- Norbormide, the effect of against *Rattus norvegicus* on farms, 147
- Phage-typing of *Staphylococcus aureus* by an alternative method, 605
 Poliovirus type 1 strains from the Blackburn outbreak in 1965, genetic marker studies on, 513
 Poliovirus, the inactivation of in aerosols, 557
 Pox viruses, the neutralization of, I, 541; II, 549
 Pyrimidine analogues inhibiting the synthesis of folic acid by trachoma agents, 295
- Q fever outbreak in Staffordshire, 649
- Rattus norvegicus* on farms; a comparative trial of norbormide and zinc phosphide, 147
 Reovirus infection in northern India; a sero-epidemiological study, 519
 Respiratory infection in an isolated Antarctic community, 427
 Rubella virus, growth in human embryonic organ cultures, 407
- Salmonella typhimurium* excretion in calves, 207
 Salmonella isolation from heavily contaminated materials by elevated temperature incubation of enrichment media, 377
 Salmonellas, sources of in market swine, 281
 Serum opacity reaction of *Streptococcus pyogenes*, 37; 49
 Sewer swabs; investigation of following the Aberdeen typhoid outbreak of 1964, 489
Shigella sonnei, further studies on the antibiotic resistance of. I., 471; II. 479
 Slicing machines, carving knives and can-openers, the hygiene of, 439
 Sodium thioglycollate; studies on its inhibitory properties on the germination of wet spores of clostridia, 269
 Staphylococcal infection in hospital patients in relation to use of antibiotics and other factors; statistical analysis of, 175
Staphylococcus aureus phage-typing by an alternative method, 605
 Statistical analysis of staphylococcal infection in hospital patients in relation to use of antibiotics and other factors, 175
 Streptococci of group A; serological types in Trinidad, 657
Streptococcus pyogenes, the serum opacity reaction of, 37; 49
 Surgical operations and thermal comfort, 229
 Survival of wound pathogens under different environmental conditions, 393
- Thermal comfort during surgical operations, 229
 Trachoma agents; inhibition by pyrimidine analogues of the synthesis of folic acid by, 295
 Transport of swabs from surfaces examined for organisms causing foodborne disease, 59

- Trinidad streptococcal types associated with acute glomerulonephritis, 657
- Typhoid outbreak in Aberdeen in 1964; laboratory investigation of sewer swabs, 489
- Vaccination with live type 4 adenovirus; evaluation of antibody response and protective efficacy, 499
- Vaccinia and cowpox viruses, inhibition of growth in RK13 cells, 191
- Vaccinia virus, the immunogenicity of in rabbits after heat inactivation, 89
- Vaccinia virus, studies on the LS antigen of, 415
- Variola minor in a semi-rural school district, 7
- Viral gastroenteritis and Sonne dysentery; water-borne outbreak of, 383
- Viruses, the immune response to in calves, I. 451; II. 461
- Viruses: adeno, 499; African swine fever, 117; cowpox, 191; foot-and-mouth, 27, 633; Langat, 343, 355; louping ill, 217; Murray valley encephalitis, 451; polio, 513, 557; pox, 541, 549; reo, 519; rubella, 407; vaccinia, 89, 191, 415
- Warfarin, the effect of on plasma clotting time in wild house mice, 159
- Water, the enumeration of coliform organisms in, 67
- Water-borne outbreak of viral gastroenteritis and Sonne dysentery, 383
- Whey complement fixation test. Its relation to whey agglutination and isolation of *Brucella abortus* from the milk of individual cows, 19
- Wound pathogens, survival of under different environmental conditions, 393
- Zinc phosphide compared with norbormide against *Rattus norvegicus* on farms, 147
