Surgical Management of Acquired Subglottic Stenosis: <i>C. M. Bailey</i>	45

DUPHAR Medical Relations is a group within Duphar Laboratories dedicated to the organization of medical meetings with high educational content. The group was set up in June 1985 with the intention of arranging several meetings each year covering a wide range of subjects. This publication forms the proceedings of a Round Table meeting held in London at the Royal Society on the 16th October 1987.
