

If I ran the ED (with apologies to Dr. Seuss)

I will see them here.
I will see them there.
I will see them in a chair.
I will see them anywhere.

I can work the ED after 3 years or 5.
My job is to keep the patients alive.
I will see them young and old.
I will see them if it's just a cold.

I see the sick, I see the well.
I see the old with dizzy spells.
I see the ones who have chest pain.
I see the ones with secondary gain.

I really don't know what to do.
Three-hour wait for CTAS-2.
EMS is in off-load delay.
Thank God for the AFA!

Room 16 thinks she's from MARS.
Resus has a probable SARS.
Agency has staffed room 1.
I think my orders will not get done.

I will see them here or there.
I will see them in a chair.
I will see them on the floor.
And I will send them out the DOOR!
