Nosocomial Pneumonia: New Concepts on an Old Disease

Donald E. Craven, MD

ORIGINAL ARTICLES

Stress Ulcer Prophylaxis and Ventilation Pneumonia: Prevention by Antibacterial Cytoprotective Agents?

F. Daschner, MD; I. Kappstein, MD; I. Engels;
K. Reuschenbach, MD; J. Pfisterer, MD; N. Krieg, MD;
W. Vogel, MD

A Cost Comparison Analysis for Screening and Vaccination of Hospital Personnel with High- and Low- Prevalence Hepatitis B Virus Antibodies in California

Myron J. Tong, PhD, MD; Ruth L. Co, RN; Robin D. Marci, RN;
Phyllis M. Michaelson, RN, MPA; George Ortega, MD

Evaluation of a Urinary Catheter with a Preconnected Closed Drainage Bag

Jane DeGroot-Kosolcharoen, RN, MS, CIC;
Rhonda Guse, RN, BS; Jeffrey M. Jones, MD, PhD

Nosocomial *Pseudomonas aeruginosa* Conjunctivitis in a Pediatric Hospital

Susan King, MDCM, FRCP(C); Shashi P. Devi, MD;
Cathy Mindorff, RN; Mary Lou Patrick, RN;
Ronald Gold, MD, FRCP(C); E. Lee Ford-Jones, MD, FRCP(C)

Recommended by all major scope manufacturers

Sporicidin[®]

Requires No Heat

Compare for 100% TUBERCULOCIDAL ACTIVITY

| | Temperature | Immersion Time | Dilution | Reuse Life |

For years you've protected your patients from infectious disease.

Now there's extra protection for your staff.

The threat of contamination from infectious disease increases daily. To help you safeguard your staff, General Medical presents its line of Personnel Protection Products. Hundreds of items for clinical, procedural and emergency situations, from coveralls to gowns... splash protection goggles to bootcovers... sharps containers to an AIDS contamination kit.

Provide your staff with extra protection. Provide General Medical's Personnel Protection Products.

Ask your General Medical representative for our free catalog of Personnel Protection Products. For the phone number of your nearest General Medical location call toll free, 1-800-446-3008. In Virginia call collect (804) 780-2653.

General Medical Corporation

1. The HR Needle accommodates any standard slip or luer lock syringe.

2. Administer injection following normal hospital procedure.

3. To remove the HR Needle-assembly, grasp the plastic guard firmly with one hand. Then withdraw the syringe with the other hand until the guard clicks in place.

Infectious diseases have created a serious crisis for today's health care professionals. Through exposure to high-risk patients, medical personnel are more likely to contract AIDS, Hepatitis B, and non-A, non-B Hepatitis than any other working group.

And the accidental needle stick is the most common cause of on-the-job infection. Accounting for nearly

1/3 of health care related accidents, **needle-stick injuries** pose a real danger, not only to medical and nursing professionals, but to hospital technicians and even house-keeping personnel. In spite of the most careful handling of syringe needles, these injuries continue to be the leading single source of physical contamination *and* emotional anxiety among health care professionals.

Introducing the HR Needle from ICU Medical—the new standard of protection for the health care industry. Designed to safeguard against needle-stick injuries, the guard of the HR Needle encloses the used needle **permanently**, at the point of injection, eliminating the hazard of recapping or disassembly and dramatically reducing the possibility of accidental needle sticks.

Let the HR Needle provide you with the maximum protection you need

4. The HR Needle is now safe for disposal, recessed within the protective guard.

against the needless transmission of infectious diseases.

ICU Medical is committed to your protection—providing products designed to reduce the liability, cost and anxiety encountered by today's health care professionals.
