

WELCOME

DGP 18 BERLIN

Freie Universität Berlin

28th ANNUAL MEETING OF THE
GERMAN SOCIETY FOR PARASITOLOGY
21-24 March 2018 | www.parasitology-meeting.de

The background of the advertisement is a dark, monochromatic image of several jellyfish. One large jellyfish is in the upper center, another is to its left, and a smaller one is in the lower left. The jellyfish have a translucent, spotted appearance with long, flowing tentacles.

Life Sciences

Books and Journals from
Cambridge University Press

Cambridge is one of the leading publishers in ecology and conservation biology and publishes high quality texts and research across the breadth of the life sciences, focusing particularly on animal behaviour, biological anthropology, evolutionary biology, computational and systems biology, as well as statistics and professional development titles for biologists.

We also have an extensive portfolio of established journals in agriculture, ecology and conservation, and animal science.

Medicine

Books and Journals from
Cambridge University Press

The Cambridge Medicine programme focuses its book publishing in a defined set of core clinical areas with our great strength in the clinical brain sciences. Other specialties of significant focus include reproductive medicine/obstetrics and gynaecology, anaesthesia and critical care, emergency medicine and pathology.

Our journals programme covers a broad spectrum of medical disciplines including emergency and disaster medicine, epidemiology and infectious diseases, biomedical science, genetics, nutrition, mental health and psychiatry, and neuroscience.

We partner with many learned societies including The Society for Healthcare Epidemiology of America, and the Neuroscience Education Institute, and the Royal College of Obstetricians and Gynaecologists.

Parasitology

Back volumes. Vols. 1–71: Inquiries should be addressed to Wm. Dawson & Sons Ltd, Cannon House, Folkestone, Kent. Vols. 72 onwards: quotations for parts still in print may be obtained from Cambridge or the American Branch of Cambridge University Press.

Copying. This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to C.C.C. of the per-copy fee of \$16.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0031–1820/2018 \$16.00.

Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

ISI Tear Sheet Service. 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

Claims for missing issues can only be considered if made immediately after receipt of the subsequent issue.

Advertising. Details of advertising in Parasitology may be obtained from the publisher.

Online submission. Authors are encouraged to submit their manuscripts online. Go to <http://mc.manuscriptcentral.com/par/> to open an author's account for Parasitology. Manuscript Central is helping to improve the speed of the publication process for the journal.

Front Cover illustration: Clockwise from the top left: A fluorescent microscopy image of the apicomplexan protozoan parasite *Toxoplasma gondii*; the structure of the *Toxoplasma* kinase, CDPK1; scanning electron micrograph of *Mycobacterium tuberculosis*, the bacterial agent of TB; ligand binding to the *M. tuberculosis* cytochrome P450 enzyme, CYP121.

Everybody needs sphingolipids, right! Mining for new drug targets in protozoan sphingolipid biosynthesis

John G. M. Mina and P. W. Denny

134

SPECIAL ISSUE ARTICLE

The antifungal Aureobasidin A and an analogue are active against the protozoan parasite *Toxoplasma gondii* but do not inhibit sphingolipid biosynthesis

A. Q. I. Alqaisi, A. J. Mbekeani, M. Bassas Llorens, A. P. Elhammer and P. W. Denny

148

CORRIGENDUM

The antifungal Aureobasidin A and an analogue are active against the protozoan parasite *Toxoplasma gondii* but do not inhibit sphingolipid biosynthesis – Corrigendum

A. Q. I. Alqaisi, A. J. Mbekeani, M. Bassas Llorens, A. P. Elhammer and P. W. Denny

156

SPECIAL ISSUE REVIEW ARTICLES

New developments in probing and targeting protein acylation in malaria, leishmaniasis and African sleeping sickness

Markus Ritzefeld, Megan H. Wright and Edward W. Tate

157

The trypanosome alternative oxidase: a potential drug target?

Stefanie K. Menzies, Lindsay B. Tulloch, Gordon J. Florence and Terry K. Smith

175

Fragment-based approaches to TB drugs

Chiara Marchetti, Daniel S. H. Chan, Anthony G. Coyne and Chris Abell

184

Let's get fISSical: fast *in silico* synchronization as a new tool for cell division cycle analysis

Brooke Morriswood and Markus Engstler

196

The calcium-dependent protein kinase 1 from *Toxoplasma gondii* as target for structure-based drug design

Emily M. Cardew, Christophe L. M. J. Verlinde and Ehmke Pohl

210

Repurposing as a strategy for the discovery of new anti-leishmanials: the-state-of-the-art

Rebecca L. Charlton, Bartira Rossi-Bergmann, Paul W. Denny and Patrick G. Steel

219

***Leishmania* and other intracellular pathogens: selectivity, drug distribution and PK-PD**

Simon L. Croft
