The Lisle Letters

An Abridgement

**Edited by Muriel
St. Clare Byrne**

**Selected and Arranged by
Bridget Boland**

Foreword by Hugh Trevor-Roper

In *The Lisle Letters*, Muriel St. Clare Byrne selected 1,900 letters, weaving them together with her own brilliant commentary to produce a magnificent portrait of family life against the background of intrigue, terror, and politics that was the court of Henry VIII. When published in 1981, the six-volume set received unanimous praise and critical acclaim:

◆ "One of the most extraordinary historical works to be published in the century."

— J. H. Plumb, *New York Times Book Review*

◆ "A stupendous font of early Tudor social history, a massive storehouse of intimate information, and a landmark of 20th century scholarship." — Israel Shenker, *Smithsonian*

◆ "All, one hopes, will acquaint themselves with the world of the Lisles." — G. R. Elton, *London Review of Books*

Now Bridget Boland has selected, condensed, and rearranged material from that monumental work for the pleasure of the general reader. This one-volume abridgement will open up the fascinating world of the Lisles to an even wider audience than was before possible.

One Fairy Story too Many

*The Brothers Grimm and
Their Tales*

John M. Ellis

The Brothers Grimm — fathers of folklore . . . or frauds? This book tells the tale of how the Grimms' beloved fairy tales originated in a literary fraud. When the brothers presented these tales to the world, they claimed to have tapped an oral tradition of folk story-telling in Germany. But Ellis argues that the tales have little to do with German folklore — and that the brothers clearly knew it.

The "Inward" Language

*Sonnets of Wyatt, Sidney,
Shakespeare, Donne*

Anne Ferry

The fundamental question explored in *The "Inward" Language* is whether sixteenth- and early seventeenth-century writers, without modern vocabularies for describing what we call the *real self* or the *inner self*, nevertheless conceived of inward experience in any sense to which our terminologies can be applied.

Love Known

*Theology and Experience
in George Herbert's Poetry*

Richard Strier

This book will change the way we read one of the greatest masters of the lyric poem in English. Strier offers not only a new historical approach to Herbert, but a new appreciation of the relationship between the psychological realism and human appeal of the lyrics and their theological core.

Critical Reading in Paperback

ON DECONSTRUCTION

Theory and Criticism after Structuralism

By JONATHAN CULLER

"Jonathan Culler's book is the best on deconstruction and on recent theoretical writing I know. *On Deconstruction* is a tour de force of exposition and argumentation, a brilliant text, and an excellent textbook."—Gerald Prince, University of Pennsylvania. "Admirably crisp and concise. . . . Eminently readable."—*Library Journal*.

THE PURSUIT OF SIGNS

Semiotics, Literature, Deconstruction

By JONATHAN CULLER

"A reasoned defense of deconstruction, one from which scholars and general readers will be able to learn a good deal."—Gerald Graff, *London Review of Books*. "Culler gives superbly levelheaded descriptions of the major conflicts and paradoxes that plague these fields of literary theory while making them fruitful areas of inquiry."—*Choice*.

NARRATIVE DISCOURSE

An Essay in Method

By GERARD GENETTE

Translated by Jane E. Lewin, with a Foreword by Jonathan Culler. "[This book] earns a most distinguished place in the tradition of narrative theory from Henry James and Wayne Booth. . . . Its texture is rich in allusion and judicious commentary. . . . Absolutely required reading for anyone concerned with the structure of fiction in particular and with the problems of discourse analysis in general."
—*The Journal of Aesthetics and Art Criticism*.

(Available in cloth, \$24.50) \$8.95 paper

THE SENSE OF ORDER

A Study in the Psychology of Decorative Art

By E.H. GOMBRICH

"Mr. Gombrich is no run-of-the-mill art historian. Every feather sticks to his magnet. To read him is to be carried along by a euphoric mix of propositions ransacked from biology, psychology, semiotics, information theory and art."
—Suzi Gablik, *The New York Times Book Review*. "[This] volume is an imposition of high order on the profusion of art books that offer a thousand views but not a single vision."
—*Time*. **With 470 b&w photos, 11 color plates.**
