Manuscripts

1. Manuscripts should not exceed 10,000 words (or equivalent). Shorter pieces and squibs are welcome.
2. Authors should submit to the appropriate editor an electronic copy of the paper, preferably in Microsoft Word DOC format. The name(s) of the author(s) and full contact details should be on a separate page at the start of the document. Occasionally, an author may be asked to send a paper copy of the manuscript by post or a PDF version as well.
3. If an accepted manuscript departs significantly from the style specified below, the contributor may be asked to reformat it. Detailed instructions for contributors are available at http://assets.cambridge.org/ELL/ELL_ifc.pdf.
4. Authors of accepted articles will be asked to assign copyright, on certain conditions, to Cambridge University Press.

Style

1. Manuscripts accepted for publication must be doubled-spaced throughout. The first lines of paragraphs, except when the first paragraph of a new section or sub-section, should be indented. There should be no extra space between paragraphs. Italics may be used in the manuscript.
2. *Section headings* should be typed on a separate line in capitals. Capitalise only first word and proper names in sub-section headings.
3. All pages should be consecutively numbered in the top right-hand corner. The various elements of the manuscript should be ordered as follows: title, abstract (maximum 150 words), text, notes (to be typeset as footnotes) and figures. In the *final* manuscript the name(s) and correspondence address of the author(s) should be typed at the end of the text.
4. Authors should consistently follow either British English or US conventions for spelling and expression. In words with alternative *-ize/ise* use *-ize*, but note that *analyze* is acceptable only in US spelling.
5. *Displayed examples* should be numbered as follows, and referred to elsewhere as (1), (2a), etc:
 - (1) John liked Mary.
 - (2) (a) John always liked Mary.
(b) John never liked Mary.Tree diagrams should be numbered in with examples. Other figures and tables should be numbered figure 1, table 1, etc., and each should have a caption. Each figure (other than tree diagrams) should be on a separate page, with an indication of its approximate position in the text.
6. *Footnotes*, which must also be double-spaced, should be numbered consecutively starting from 1. Footnote indicators in the text should be outside punctuation.
7. *References* in the text follow the normal author–date style: (Vincent 1997: 90–1); Vincent (1997) states ... For multi-authored works, only the first citation should list all authors: (Brown, Smith & Jones 1996). In subsequent citations, only the first name should be given followed by et al. Separate works referred to in the same parentheses should be listed in alphabetical order: (Brown 1996; Smith 1991, 1992).
8. An alphabetical listed headed REFERENCES should start on a fresh page, double-spaced throughout. There should be no extra space between entries; the second and subsequent lines of each entry should be indented. Where more than one work by the same author is listed, the author's name should be repeated in each entry. The ampersand, &, should be used with joint authors.
9. The following conventions should be observed:
