**Moral Philosophy at  
Seventeenth-Century Harvard**  
A Discipline in Transition

by Norman Fiering

Fiering's book is the most extensive investigation of philosophical and psychological ideas in seventeenth-century New England since Perry Miller's *New England Mind*. He explores the seventeenth-century foundations of the remarkable burgeoning of interest in moral philosophy in the eighteenth century and demonstrates that intellectual developments in the eighteenth century were a logical outgrowth of the evolution of philosophical and psychological thought in the seventeenth century.

xiii + 323 pp., illus., \$24.00

**Jonathan Edwards's Moral Thought  
and Its British Context**

by Norman Fiering

Challenging many of the standard interpretations of Edwards, Fiering also convincingly documents Edwards's attempt to reassert a dominant role for religion in an increasingly secular age. He skillfully integrates Edwards's work on ethics into seventeenth- and eighteenth-century British and Continental philosophy, isolating Edwards's particular contributions to the ethical thought of his time.

approx. 540 pp., \$30.00

*New from Harvard Theological Studies:*

***Schleiermacher's Early Philosophy of Life:  
Determinism, Freedom and Phantasy***

ALBERT BLACKWELL

Following the course of Schleiermacher's life from 1789–1804, this book develops its themes of determinism, freedom, and phantasy in relation to three principal writings: *On Human Freedom* (1792); *On Religion* (1799); and *Soliloquies* (1800). The book provides a thorough analysis of Schleiermacher's early thinking and an interpretive portrait of Schleiermacher as a young man, augmented by passages from his correspondence and incidents from his life.
