# Shakespeare, Natural Right, and Poetry from Chicago

## SHAKESPEARE'S FREEDOM Stephen Greenblatt

With the elegance and verve for which he is well known, Stephen Greenblatt explores how Shakespeare was strikingly averse to absolutes and constantly explored the possibility of freedom from them. Greenblatt investigates this rich theme by addressing four of Shakespeare's preoccupations: the idea of beauty, murderous hatred, the ethical ambiguity of power, and autonomy.

## PERSECUTION, PLAGUE, AND FIRE Fugitive Histories of the Stage in Early Modern England

Ellen MacKay

"This book superbly captures the sense in which the Elizabethan theater is so quintessentially like all theater at its best and most evanescent: now you see it, now you don't. The life of performance resides apocalyptically in its impermanence."

—David Bevington, University of Chicago

David Waines

A Bilingual Edition

Tommaso Campanella

Edited, Translated, and Annotated by  
Sherry Roush

"Sherry Roush has risen to the challenging task of giving us a bilingual selection of Campanella's philosophical poems, and of his own authorial commentary on them, in prose renderings that are carefully wrought and eminently readable: she has captured much of Campanella's voice in this, the first major engagement with his poetry in English."—Michael J. ## THE TERROR OF NATURAL RIGHT Republicanism, the Cult of Nature, and the French Revolution Dan Edelstein

"One of the most memorable and absorbing books on the era I have ever read. . . . Against interpretations that simply blame circumstances, Edelstein insists that ideas mattered. But the most provocative argument in his book is that the ideas that made the revolution spiral out of control were the cult of nature and the belief in natural rights."—Samuel Moyn, *Nation*
