

## INDEX OF SUBJECTS

- Ammonium compounds, quaternary, 271  
 Antibiotic from *Pfeifferella whitmori*, 142  
 Antibodies, natural, in rabbit sera, in relation to paracolons organisms, 115  
 Antigenic relationship among faecal bacilli, 227  
 Antihorse serum (rabbit) and horse-serum reaction, 360
- Bact. coli*,  $\alpha$  and  $\beta$  types, and infantile gastro-enteritis, 221  
 Bacteria in sewage, destruction of by chlorine and cyanogen chloride, 320  
 Bacteria in sewage, effect of treatment at sewage works, 303  
 Bacteria, nuclear cycle in, 182  
 Bacterial growth, inhibition by ozone, 146  
 Bacteriophage action on genus *Brucella*, 414  
*Brucella* genus, bacteriophage action on, 414
- Cattle, vaccination of, with living vole acid-fast bacillus, 39  
 Chickenpox, herpes zoster in relationship to, 253  
 Chlorine and cyanogen chloride, destruction of bacteria in sewage by, 320  
 Conglutination phenomenon, 132  
*Corynebacterium diphtheriae*, tellurite medium for identification and isolation of, 102  
 Cyanogen chloride and chlorine, destruction of bacteria in sewage by, 320
- Dust, floor, examination for haemolytic streptococci, 416
- Electron microscope and morphology of *Leptospira*, 390  
 England and Wales, non-pulmonary tuberculosis in, 337  
 Expectation of tumourless life, standard error of estimate of, 188
- Faecal bacilli, antigenic relationship among, 227  
 Flagellar antigen phase, rate of mutation in *Salmonella typhi-murium*, 398  
 Floor dust, examination for haemolytic streptococci, 416  
 Foot-and-mouth disease and vesicular stomatitis, 384  
 Formic hydrogenlyase and glycine, 278  
 Freshness, effect of radiation on subjective impressions of, 288
- Gastro-enteritis, infantile, and  $\alpha$  and  $\beta$  *Bact. coli*, 221  
 Gastro-enteritis, infantile, in Queensland caused by *Salmonella bovis-morbificans*, 166  
 Glycine and formic hydrogenlyase, 278  
 Guinea-pig, post-partum breeding in, 281
- Haemagglutination-inhibition test in influenza-virus studies, 396  
 Haemolytic disease of newborn rabbit, 119  
 Herpes zoster in relationship to chickenpox, 253  
 Horse serum and rabbit antihorse serum, reaction in, 360  
 Housing of Laboratory animals, 190  
 Hydrogenlyase, formic, and glycine, 278
- Infantile gastro-enteritis, and  $\alpha$  and  $\beta$  *Bact. coli*, 221  
 Influenza and pneumonia, relationship of, 434  
 Influenza-virus studies, haemagglutination-inhibition test in, 396  
 Isoimmunization of pregnancy in the rabbit, 119
- Laboratory animals, feeding and breeding of mice and rats, 202  
 Laboratory animals, feeding and breeding of monkeys, 209  
 Laboratory animals, housing of, 190  
 Laboratory animals, record keeping for, 197  
 L-form of *Streptobacillus moniliformis*, filtrability of, 393  
*Leptospira*, morphology of, 390
- Mice and rats, feeding and breeding of, 202  
 Mice, pathogenicity of Group B streptococci for, 159  
 Monkeys, feeding and breeding of, 209
- New Zealand, epidemiology of poliomyelitis in, 79  
 Non-pulmonary tuberculosis in England and Wales, 337  
 Nuclear cycle in bacteria, 182
- Ozone, inhibition of bacterial growth by, 146
- Paracolon group of organisms, natural antibodies in rabbit sera, 115  
 Pemphigus neonatorum, source of infection in, 213  
*Pfeifferella whitmori*, antibiotic from, 142  
 Plague of the Philistines, 244  
 Pneumonia and influenza, relationship of, 434  
 Poliomyelitis, epidemiology of, in New Zealand, 79  
 Post-partum breeding in the guinea-pig, 281
- Quaternary ammonium compounds, 271
- Radiation, effect of, on subjective impressions of freshness, 288  
 Rat poison, red squill as a poison, 431  
 Rat poison, sodium fluoracetate (1080) as a poison, 426  
 Record keeping for laboratory animals, 197  
 Red squill, as a rat poison, 431  
 Richardson's verification test in sero-diagnosis of syphilis, 263
- Salmonella bovis-morbificans*, infantile gastro-enteritis in Queensland caused by, 166  
*Salmonella typhi-murium*, rate of mutation of flagellar antigenic phase, 398  
 Sero-diagnosis of syphilis, Richardson's verification test in, 263  
 Sewage, bacteria in, effect of treatment at sewage works, 303  
 Sewage, destruction of bacteria in, by chlorine and cyanogen chloride, 320  
 Sodium fluoracetate (1080) as a rat poison, 426

- Spermatozoa, human, relative viability of, 297  
Squill, red, as a rat poison, 431  
*Streptobacillus moniliformis*, filtrability of L-form, 393  
Streptococci, Group B, pathogenicity for mice of, 159  
Syphilis, Richardson's verification test in sero-diagnosis of, 263
- Tellurite medium for identification and isolation of *Corynebacterium diphtheriae*, 102  
Toxins and toxoids, qualitative differences among, 107
- Tumourless life in mice, standard error in estimate of expectation of, 188
- Vaccination of cattle with living vole acid-fast bacillus, 39  
Ventilation, domestic, measurement of, 1  
Vesicular stomatitis and foot-and-mouth disease, 384  
Vole acid-fast bacillus, vaccination of cattle with, 39  
Whale meat, dried, bacteriological study of, 236
