# CHINA'S CULTURAL DIPLOMACY

- \* *What can one see when one goes to China?*
- \* *What treatment do the Chinese accord to visitors?*
- \* *What effect does a visit to China have on an Asian; a European; a Communist?*
- \* *Do the big National Day parades really impress visitors?*
- \* *Can scholars do research in China?*
- \* *How many foreign students have gone to China?*
- \* *What are the motives for China's massive investment in bringing foreign visitors to Peking?*

These are some of the questions discussed in Herbert Passin's  
**CHINA'S CULTURAL DIPLOMACY**

which is an incisive analysis of a neglected but vital aspect of China's foreign policy methods. On the basis of the experiences of a number of Asian and European countries, it assesses the impact on foreigners of visits to China, of 'cultural missions', of the tours of Chinese theatrical groups and of all the thousand and one exchanges that go on between China and the outside world.
