Dependent Development

The Alliance of Multinational, State,
and Local Capital in Brazil

PETER EVANS ■ In order to analyze Brazil's recent accumulation of capital in the light of its continued dependence, Peter Evans focuses on the seemingly contradictory relationships among multinational corporations, local private entrepreneurs, and state-owned enterprises that have developed in Brazil over the last decade.

"This is the most important recent book on economic development written from a Left political perspective....Rare has been the industrial revolution which has equitably benefitted the generation which produced that revolution. What Evans has accomplished in this book is a brilliant analysis of the circumstances in which the most recent version of this kind of alienating development can occur."—Jay R. Mandle, *The Annals*

Scarcity and Survival in Central America

Ecological Origins of the Soccer War

William H. Durham. Looking at both population and land tenure dynamics in their historical context, this study challenges the view that the 1969 conflict between El Salvador and Honduras was primarily a response to population pressure. The author demonstrates that land scarcity, a principal cause of the war, was largely a product of the concentration of land holdings. The analysis focuses on the emigration of 300,000 Salvadoreans to Honduras in the years before the war, inquiring into the reasons for the emigration, its impact on local agricultural economies, and its relation to the conflict. In addition to its value as a case study in human ecology, this book gives a clear account of the nature and origins of ecological pressures in rural Central America. Illustrated. \$14.50

Capitalism and the State in U.S.-Latin American Relations

Edited by Richard R. Fagen. Why does the United States respond as it does to political and economic events in Latin America? How does the United States condition events in Latin America, and how is it in turn conditioned by the results of its influence? This volume presents ten papers which seek the answers to these questions by exploring the deep sources of U.S. foreign policy toward the hemisphere. Part I deals with general aspects of U.S. foreign policy. Part II is a collection of case studies of relations between individual Latin American countries and the United States. September. THE PALM AND THE PLEIADES

Initiation and Cosmology in Northwest Amazonia

STEPHEN HUGH-JONES

A study of a secret men's cult, Yurupary, widespread throughout northwest Amazonia, as practiced by the Barasana Indians. Through his analysis of the Yurupary ritual, Dr. Hugh-Jones presents a picture of a religious system that is common to the region and of South American Indian society in general.

MODERNIZATION IN A MEXICAN EJIDO

A Study in Economic Adaptation

BILLIE R. DeWALT

A study of the response of an agrarian peasant community, Puerto de las Piedras, to recent socioeconomic development projects, including the Green Revolution technology. DeWalt shows that there is considerable intra-community variation on a wide range of behavior, and that this variability is important in understanding the process of economic development. #33 \$17.95

FROM DESSALINES TO DUVALIER

Race, Colour and National Independence in Haiti

DAVID NICHOLLS

Dr. Nicholls demonstrates that, although ideas of race have provided a bond linking Haitians in their struggle for independence, color divisions dating back to colonial times, and the ideologies that developed from them, have been one of the principal threats to national independence. This history of Haiti shows that Haitians prefer foreign intervention to compromise with their opponents. #34 t \$25.95

A SOCIOECONOMIC HISTORY OF ARGENTINA

1776–1860

JONATHAN C. BROWN

Focuses on the double aspects of Argentina's integration into the Atlantic community: production and social change. Brown examines how the industrial revolution in Europe and the United States created a market for Argentine foreign trade and became a major factor in the country's internal development. He concludes that conventional notions of dependency do not apply to Argentina's socioeconomic expansion. #35 \$24.95

The Southeast Frontier of New Spain

PETER GERHARD

Designed for easy reference and well illustrated with maps, this guide to the historical geography of New Spain's southeast frontier from 1511 to 1821 is an invaluable research aid for scholars concerned with various aspects of the area's past. Based largely on descriptions by contemporary witnesses of the local scene during the three centuries of Spanish rule, Gerhard's work condenses essential information on native political structures and linguistic patterns at first European contact, the conquest and Spanish control through the encomienda and later institutions, the evolution of civil and ecclesiastical boundaries, and demographic change within each small region of the Mexican southeast. 25 maps. \$16.50

Poverty and Problem-Solving under Military Rule
THE URBAN POOR IN LIMA, PERU

By Henry A. Dietz

This is one of the first studies to examine how military regimes react to the political pressures that wide-spread poverty creates and how the poor operate under authoritative rule. In his investigation of Lima's poor under General Juan Velasco (1968–1975), Henry Dietz provides much new information on elite-mass relationships in Latin America and focuses on issues concerning urbanization, poverty, and social policy formation.

The Economics of Third World Military Expenditure

By David K. Whynes

Many third world nations suffer acutely from problems of starvation, poverty, and disease, while their share of world arms expenditure continues to increase. This study examines the effect of military spending on third world development objectives, isolates factors explaining the rapid growth of such spending, and analyzes it as a part of public expenditure as a whole.

Elites, Masses, and Modernization in Latin America, 1850–1930

Edited by Virginia Bernhard

The interactions between the elite and the lower classes of Latin America are explored from the perspectives of the three eminent historians E. Bradford Burns, Thomas E. Skidmore, and Richard Graham. The result is a counter-balance of viewpoints on the urban and the rural, the rich and the poor, and the Europeanized and the traditional of Latin America.

Supermadre

WOMEN IN POLITICS IN LATIN AMERICA

By Elsa M. Chaney

In her detailed study of women in politics and government in Latin America, Elsa M. Chaney finds that their participation is usually confined to extensions of their roles as mothers—health, education, welfare, for example—and then only on the lower levels of policy-making. She concludes that the Latin American woman's progress in public life will be slow as long as she continues to view herself as supermadre.

EVA PERÓN

The Myths of a Woman

J. M. Taylor

Eva Perón, former First Lady of Argentina and a powerful leader in her own right, is still an important political figure two decades after her death. Despite her immense popularity, the "real" Eva Perón was inaccessible to the people of Argentina, and they constructed various images of her to fill the void. In this book, Julie M. Taylor explores the three major myths that surrounded Perón and uses them to examine aspects of Argentine culture and history.

LA CHICANA

The Mexican-American Woman

Alfredo Mirandé and Evangelina Enríquez

Very little is known about the contributions or the history of Chicanas. They experience multiple forms of oppression as women, as members of a colonized group, and as members of a culture perceived to be dominated by males. *La Chicana* offers a definitive study of this long neglected group.

The book describes the role of Chicanas in history and in contemporary society, including an examination of how Chicanas are viewed in literature. It concludes by tracing the development of Chicana feminism.
