

# ANNOUNCING

## **PARTISAN REALIGNMENT** *Voters, Parties, and Government in American History*

Jerome M. Clubb  
William H. Flanigan  
Nancy H. Zingale

Club, Flanigan, and Zingale discuss the interrelationships between voting behavior in the mass electorate and patterns of party control of government policy-making institutions. Their investigation focuses on the realignment perspective—the theory that the political history of the United States is marked by repetitive sequences, or party systems, each beginning with a partisan realignment that involved the appearance of a new electoral alignment, which endured for a significant time and then deteriorated. Through the use of both historical data and quantitative techniques, the authors expand upon traditional discussion of the realignment perspective, explicitly linking mass voting behavior with political leadership, and revealing that historical realignment sequences are marked by similar stages of control of government, elite behavior, and policy formation.

**TABLE OF CONTENTS:** 1. Critical Elections, Realignments, and Party Systems / 2. Identifying Realignments: Correlational Analysis / 3. Identifying Realignments: A Reassessment / 4. The Deterioration of Electoral Alignments / 5. Partisan Realignment and Control of Government / 6. Partisan Control of State Governments / 7. Congress and Partisan Change / 8. The Dynamics of Partisan Change / 9. Prospects for Partisan Change / Appendix / Index

# CLASS CONFLICT AND COLLECTIVE ACTION

edited by LOUISE A. TILLY and CHARLES TILLY,  
*University of Michigan*

Published in cooperation with the Social Science History Association

The contributors to *Class Conflict and Collective Action* break with the predominant definition of class conflict as societal tension-release, and instead see social movements as responses to the concerns of everyday life. Studying the effects of European proletarianization and capital concentration between 1750 and 1914, the essays seek to determine at what point class conflict generated a collective action, and how the historical forms of contention changed under the influence of capitalism and nationalization. Edited by noted scholars Louise and Charles Tilly, this book forms a vital contribution to the ultimate goal of a comparative history of the Western industrial working class.

*Class Conflict and Collective Action*, the first volume in Sage's *New Approaches to Social Science History* series, integrates a body of original and innovative material, using a common intellectual framework, a comprehensive introduction and conclusion, and tight and careful editing throughout. The book will hold great interest for those studying social history, European history, labor history, and research in power structures and the politics of collective action.

**TABLE OF CONTENTS:** Introduction CHARLES TILLY / 1. The Web of Contention in Eighteenth-Century Cities CHARLES TILLY / 2. Revolution and the Rural Community in the Eastern Netherlands WAYNE P.
