JOURNAL OF NUTRITIONAL SCIENCE

Editor-in-Chief

G C Burdge, *University of Southampton, UK*

 **Cambridge
Open**

Journal of Nutritional Science encompasses the full spectrum of nutritional science including public health nutrition, epidemiology, dietary surveys, nutritional requirements, metabolic studies, body composition, energetics, appetite, obesity, ageing, endocrinology, immunology, neuroscience, microbiology, genetics and molecular and cell biology. The Nutrition Society fully engages with the Open Access model of publishing.

PHN

PUBLIC HEALTH NUTRITION

Editor-in-Chief

Marilyn Tseng, *California Polytechnic State University, USA*

Public Health Nutrition provides an international peer-reviewed forum for the publication and dissemination of research and scholarship aimed at understanding the causes of, and approaches and solutions to, nutrition-related public health achievements, situations and problems around the world. The journal publishes original and commissioned articles, commentaries and discussion papers for debate.

Special sales and supplements:

This Journal accepts relevant advertisements and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplements on behalf of academic and corporate collaborators. Please contact Sarah Maddox at the Cambridge address for further details. E-mail: special_sales@cambridge.org

Subscription information:

British Journal of Nutrition is an international journal published by Cambridge University Press on behalf of The Nutrition Society. The twelve issues starting January 2016 comprise Volume 115, the twelve issues starting July 2016 comprise Volume 116.

Annual subscription rates:

Volumes 115/116 (24 issues):
Internet/print package £1654/\$3225/€2649
Internet only: £1149/\$2241/€1836

Any **supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

Back volumes are available. Please contact Cambridge University Press for further information.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

US POSTMASTERS: please send address corrections to *British Journal of Nutrition*, Cambridge University Press, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA.

Directions to Contributors are available from the Society at the address below or can be found on the Society's website at <http://www.nutritionistsociety.org>.

Offprints: The author (or main author) of an accepted paper will receive a copy of the PDF file of their article. There will be an option to purchase paper offprints, these should be ordered at proof stage. No page charges are levied by this journal.

Copyright: As of 1 July 2000 the copyright of all articles submitted to *British Journal of Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Publications Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London W6 7NJ, UK.

This journal is printed on acid-free paper from renewable sources. Printed in the UK by Bell & Bain Ltd., Glasgow.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information.

British Journal of Nutrition is covered in Current Contents®/Agriculture, Biology & Environmental Sciences, SciSearch®, Research Alert®, Current Contents®/Life Sciences, Index Medicus® (MEDLINE®), AGRICOLA®, CAB Abstracts™, Global Health, BIOSIS® Database, EMBASE/Excerpta Medica and Elsevier BIOBASE/Current Awareness in Biological Sciences, CINAHL, and Chemical Abstracts Service.

Metabolism and Metabolic Studies

- Influence of ruminal methane on digesta retention and digestive physiology in non-lactating dairy cattle
M. T. Dittmann, K. J. Hammond, P. Kirton, D. J. Humphries, L. A. Crompton, S. Ortmann, T. H. Misselbrook, K.-H. Südekum, A. Schwarm, M. Kreuzer, C. K. Reynolds & M. Clauss 763-773

Developmental Biology

- Maternal dietary vitamin D carry-over alters offspring growth, skeletal mineralisation and tissue mRNA expressions of genes related to vitamin D, calcium and phosphorus homeostasis in swine
L. A. Amundson, L. L. Hernandez, J. Laporta & T. D. Crenshaw 774-787

Human and Clinical Nutrition

- Lipid structure does not modify incorporation of EPA and DHA into blood lipids in healthy adults: a randomised-controlled trial
A. L. West, G. C. Burdge & P. C. Calder 788-797

- A prebiotic galactooligosaccharide mixture reduces severity of hyperpnoea-induced bronchoconstriction and markers of airway inflammation
N. C. Williams, M. A. Johnson, D. E. Shaw, I. Spendlove, J. Vulevic, G. R. Sharpe & K. A. Hunter 798-804

- Oxidative stress and nitric oxide are increased in obese children and correlate with cardiometabolic risk and renal function
L. Correia-Costa, T. Sousa, M. Morato, D. Cosme, J. C. Areias, F. Schaefer, A. Guerra, A. C. Afonso, A. Azevedo & A. Albino-Teixeira 805-815

- Re-evaluation of the mechanisms of dietary fibre and implications for macronutrient bioaccessibility, digestion and postprandial metabolism
M. M.-L. Grundy, C. H. Edwards, A. R. Mackie, M. J. Gidley, P. J. Butterworth & P. R. Ellis 816-833

- Minimal short-term effect of dietary 2'-fucosyllactose on bacterial colonisation, intestinal function and necrotising enterocolitis in preterm pigs
M. S. Cilieborg, S. B. Bering, M. V. Østergaard, M. L. Jensen, Ł. Krych, D. S. Newburg & P. T. Sangild 834-841

Dietary Surveys and Nutritional Epidemiology

- Reproducibility and validity of dietary patterns identified using factor analysis among Chinese populations
X. Hong, Q. Ye, Z. Wang, H. Yang, X. Chen, H. Zhou, C. Wang, W. Chu, Y. Lai, L. Sun, Y. Wang & F. Xu 842-852

- Dietary intake of manganese and the risk of the metabolic syndrome in a Chinese population
B. Zhou, X. Su, D. Su, F. Zeng, M. H. Wang, L. Huang, E. Huang, Y. Zhu, D. Zhao, D. He, X. Zhu, E. Yeoh, R. Zhang & G. Ding 853-863

- Reproducibility and validity of a semi-quantitative FFQ for trace elements
Y. Lee & K. Park 864-873

- Healthy and unhealthy dietary patterns are related to pre-diabetes: a case-control study
F. Bagheri, F. Stassi, F. Koohdani, B. Mahaki, M. Qorbani, P. Yavari, O. M. Shaibu & G. Sotoudeh 874-881

- Nutrition and mortality in the elderly over 10 years of follow-up: the Three-City study
F. Letois, T. Mura, J. Scali, L.-A. Gutierrez, C. Féart & C. Berr 882-889

- Low prevalence of inadequate micronutrient intake in young children in the south of Brazil: a new perspective
C. N. Sangalli, F. Rauber & M. R. Vitolo 890-896

- Performance of statistical methods to correct food intake distribution: comparison between observed and estimated usual intake
E. Verly-Jr, D. C. R. S. Oliveira, R. M. Fisberg & D. M. L. Marchioni 897-903

- The use of multiple imputation method for the validation of 24-h food recalls by part-time observation of dietary intake in school
E. Kupek & M. A. de Assis 904-912

- A national FFQ for the Netherlands (the FFQ-NL 1.0): validation of a comprehensive FFQ for adults
D. Sluik, A. Geelen, J. H. M. de Vries, S. J. P. M. Eussen, H. A. M. Brants, S. Meijboom, M. C. J. M. van Dongen, H. B. Bueno-de-Mesquita, N. E. G. Wijkmans-Duysens, P. van 't Veer, P. C. Dagnelie, M. C. Ocké & E. J. M. Feskens 913-923

Behaviour, Appetite and Obesity

- The effect of communicating the genetic risk of cardiometabolic disorders on motivation and actual engagement in preventative lifestyle modification and clinical outcome: a systematic review and meta-analysis of randomised controlled trials
S. X. Li, Z. Ye, K. Whelan & H. Truby 924-934

- Test-meal palatability is associated with overconsumption but better represents preceding changes in appetite in non-obese males
K. Deighton, J. Frampton & J. T. Gonzalez 935-943

- Similarities between obesity in pets and children: the addiction model
R. A. Pretlow & R. J. Corbee 944-949

Corrigenda

- Subclinical zinc deficiency impairs pancreatic digestive enzyme activity and digestive capacity of weaned piglets – CORRIGENDUM
D. Brugger & W. Windisch 950-951

- Whole-grain consumption and the risk of all-cause, CVD and cancer mortality: a meta-analysis of prospective cohort studies – CORRIGENDUM
H. Wei, Z. Gao, R. Liang, Z. Li, H. Hao & X. Liu 952-952
