BOOKS?

What is **BOOKS**?

BOOKS is the only publication of its kind. A rousing tabloid monthly newspaper, it is devoted exclusively to news (not reviews) of books and authors, trade and university.

BOOKS fills the vast communications gap between publisher (with his 25,000 new titles every year) and reader (with his educated yearning to know what's being published, from classics to chess guides).

Unlike the review periodical which acts as a filter (and even then it reviews only the smallest portion of what is being published), **BOOKS** removes the barriers and opens the channels of information.

Exclusive with **BOOKS** every month: 1) A "Critics' Scoreboard," a round-up of what the leading book reviewers are saying about new books. 2) A two-page inside-publishing column that's the most quoted news feature in the industry. 3) "The Follow-up," what happens to people and governments and events because of a particular book.

BOOKS is unlike any book publication you've read. Subscribe today. We believe that you'll find it an authoritative, informative, and refreshing experience. It'll certainly give you lots to talk about.
