

Animal Welfare

Volume 15 Issue 1

February 2006

Articles

- The Three Rs in commercial livestock experimentation*
- Evaluation of water bath stunning and slaughter of broilers*
- Effectiveness of electrical stunning and slaughter of broilers*
- Electrical stunning, current pulse width and slaughter of broilers*
- Husbandry, routine procedures and physiology in mice*
- Group housing of silver fox cubs*
- Reducing animal numbers in behavioural genetic experiments*

Short Communications

- The impact of grenade harpoons on Minke whales*
- The reduction of stereotypy in captive vicugna*
- Do wild rats handled conscious avoid recapture?*
- Expert opinion regarding enrichment materials for pigs*

Animal Welfare

ISSN 0962-7286

Editor-in-Chief: James K Kirkwood
Publications Officer: Elizabeth Roberts
Editorial Assistant: Louise Wiskin
Administrative Officer: Samantha Griffin
Administrative Assistant: Wendy Goodwin

Section Editors

Companion animals — cats and dogs

Professor Dennis C Turner
Institute for Applied Ethology and Animal Psychology
Vorderer Siten 30, PO Box 32
CH-8816 Hirzel, Switzerland

Companion animals

Professor Daniel S Mills
Animal Behaviour, Cognition and Welfare Group
Department of Biological Sciences
University of Lincoln, Riseholme Park
Lincoln LN2 2LG, UK

Farmed mammals and fish

Professor Berry M Spruijt
Ethology and Welfare Group
Department of Animals, Science and Society
Faculty of Veterinary Medicine
Utrecht University
PO Box 80. 166
3508 TD Utrecht, The Netherlands

Poultry

Professor Joy Mench
Department of Animal Science
2245 Meyer Hall
University of California
Davis CA 95616-8521, USA

Laboratory animals

Professor Jann Hau
Division of Comparative Medicine
University of Uppsala
BMC Box 572
751-23 Uppsala, Sweden

Ethics, philosophy and social science

Professor Peter Sandøe
Centre for Bioethics and Risk Assessment
Royal Veterinary and Agricultural University
Groennegaardsvej 8
DK-1870 Frederiksberg C, Denmark

General animal welfare science

Professor David Fraser
Animal Welfare Program
Faculty of Agricultural Sciences and Centre for Applied Ethics
University of British Columbia
2357 Main Mall
Vancouver V6T 1Z4, Canada

Zoo and wild animals

Editorial Office
UFAW, The Old School
Brewhouse Hill
Wheathampstead AL4 8AN, UK

Editorial Advisers

Dr Robert Baker - Adelaide, Australia
Dr MF Bouissou - INRA, Nouzilly, France
Professor D Broom - University of Cambridge, UK
Professor M Stamp Dawkins - University of Oxford, UK
Mr Roger Ewbank - Ealing, London, UK
Dr Michael Festing - University of Leicester, UK

Professor Benjamin Hart - University of California, Davis, USA
Professor David Morton - University of Birmingham, UK
Dr James Serpell - University of Pennsylvania, USA
Professor John Webster - University of Bristol, UK
Professor Piet Wiepkema - Oosterbeek, The Netherlands

Animal Welfare (ISSN 0962-7286) brings together the results of scientific research and technical studies related to the welfare of animals kept on farms, in laboratories, as companions, in zoos or managed in the wild.

Subscription rates: Individuals £75/US\$150 per Volume; Corporate/Institutes/Libraries £200/US\$400 per Volume.

Orders: Can be made direct to UFAW and are accepted by Volume, which comprises four issues per year.

Papers: Instructions for authors are summarised on the inside back cover; comprehensive instructions are available from our website, or on request from UFAW. Manuscripts should be submitted preferably to the appropriate Section Editor, or to the Editor-in-Chief.

Animal Welfare is abstracted in Biological Abstracts; CAB Abstracts; Current Contents/Agriculture, Biology and Environmental Sciences; Current Primate References; EMBASE; Focus on: Veterinary Science & Medicine; Humans & Other Species; Research Alert; SciSearch; Toxicology Abstracts; Veterinary Update; is indexed in Zoological Record; and is covered by the Science Citation Index.

Contents

Articles

- The application of Russell and Burch's Three Rs in commercial livestock experimentation 1
IG Colditz
- The effects of amount and frequency of alternating current used in water bath stunning and of slaughter methods on electroencephalograms in broilers 7
ABM Raj, M O'Callaghan and TG Knowles
- The effects of amount and frequency of pulsed direct current used in water bath stunning and of slaughter methods on spontaneous electroencephalograms in broilers 19
ABM Raj, M O'Callaghan and SI Hughes
- The effects of pulse width of a direct current used in water bath stunning and of slaughter methods on spontaneous electroencephalograms in broilers 25
ABM Raj, M O'Callaghan and SI Hughes
- The effect of routine experimental procedures on physiological parameters in mice kept under different husbandry conditions 31
MK Meijer, K Kramer, R Remie, BM Spruijt, LFM van Zutphen and V Baumans
- Group housing of farmed silver fox cubs 39
L Ahola, J Mononen, T Pyykönen and M Miskala
- Reducing the number of animals used in behavioural genetic experiments using chromosome substitution strains 49
MC Laarakker, F Ohl and HA van Lith
- ### Short Communications
- Immediate immobilisation of a Minke whale using a grenade harpoon requires striking a restricted target area 55
TG Knowles and A Butterworth
- The effectiveness of environmental enrichment on reducing stereotypic behaviour in two captive vicugna (*Vicugna vicugna*) 59
M Parker, D Goodwin, E Redhead and H Mitchell
- The effect of handling under anaesthetic on the recapture rate of wild ship rats (*Rattus rattus*) 63
DM Prout and CM King
- Expert opinion regarding environmental enrichment materials for pigs 67
MBM Bracke

On the cover: Introduced ship rats (*Rattus rattus*) are widespread and serious pests of the native fauna in New Zealand forests. Intensive research on improving control methods must balance the urgent need to protect threatened bird populations with the growing concern for the humane treatment of individual predators; see Prout and King, pp 63-66, this issue.
